# Faubus Plans to Counter Integration Moves

## NEW PEIPING THREAT TO DETERMINE U. S. TROOP ACTION BY EISENHOWER

By WARREN ROGERS JR.

WASHINGTON (AP)—American officials said today a new Peiping threat will weigh heavily in any decision by President Eisenhower on sending U. S. forces against any Red Chinese invaders in the Formosa Straits.

The State Department was so impressed by Peiping's statement that it issued a hands-off warning to the Chinese Communists Thursday.

## New Social Security Act Signed Today

WASHINGTON (AP)—President Eisenhower today signed a bill increasing Social Security benefits and taxes.

The new law will provide bigger checks starting next February for 12 million retired workers and survivors. The increase will be 7 per cent with a minimum of \$3 a month.

It also will raise taxes for old age insurance on some 75 million workers and their employers.

The payroll tax goes up Jan. 1 from 2 1/2 per cent for both worker and employer on the first \$4,200 of annual income, to 2 1/2 per cent on \$4,800.

Eisenhower expressed concern over a provision which increases the proportion of public assistance programs which are financed by the federal government. He said he is asking Secretary of Welfare-Heimling to (Turn to Page Eleven)

## Hurricane Daisy Is Moving More To the Northeast

By THE ASSOCIATED PRESS

Hurricane Daisy swept northeastward along the New England coast today but its threat to all but offshore waters around Cape Cod was reported practically eliminated.

The Boston Weather Bureau said the storm was decreasing in intensity and its danger to land areas largely terminated.

Earlier uncertainty as to what the New England storm effect would be, however, caused a delay until later today in President Eisenhower's flight to Newport, R. I., for a vacation.

By midmorning the storm center was reported 70 miles south of Nantucket.

Up to that time the land effects had been no more than moderate winds and rain, though the rain was sometimes heavy.

Even in such exposed areas along the coast as Block Island, the storm brought nothing more than gales of less than 50 miles an hour.

## Invalid Child Consents to Double Amputation of Legs

JERSEY CITY, N. J. (AP)—Doctors gave Mrs. Patrick Queeney this choice:

Either permit the amputation of your 13-year-old daughter's legs or see her spend the rest of her life in a wheel chair.

But there are things a mother cannot decide.

"How can you make a decision like that? Mrs. Queeney asked.

"If I make the wrong decision, she is the one who will suffer for the rest of her life."

So Mrs. Queeney and her husband put it up to the child, Karleen.

The little girl knew what she wanted. She had been present when doctors at the Shrine Hospital for Crippled Children in Philadelphia first mentioned the possibility that her legs could be amputated and replaced with artificial ones.

She chose the operation. Karleen has been in plaster casts and braces since she was 5 1/2 months old, when a spinal abnormality left her paralyzed from the knees down.

Two operations and one treatment after another have failed to improve her condition. And three years ago she even had to take the braces off because they caused pressure sores on her feet which are still not completely healed.

"What do you want to do?" she was asked Thursday. There was no hesitation in Karleen's answer: "I want to dance."

## Weekend To Be Quiet One for Area Residents

And Labor Day shall be a day of rest.

No public recognition will be given Monday as the country at large, along with its possessions, observes the annual Labor Day.

Most business establishments, except for neighborhood groceries and drug stores, will close for the weekend and remain shut Monday as summer holidays draw to a conclusion.

Unfortunately, the most memorable portion of the event shall probably be recorded in blood. National Safety Council predicts 420 will die in traffic accidents.

Local state troopers, police and other county law enforcement officers will be out patrolling round the clock the entire weekend in an effort to hold county carnage to a minimum.

All borough offices, county offices and post offices will observe the holiday. Elsewhere, State Parks and other recreational areas will grid for what promises to be the last great influx of visitors during the 1958 summer holiday season. There will be no issue of the Times-Mirror Monday.

Weatherman is apparently cooperating with a forecast of unsettled but sunny (if coolish) weather during the long weekend.

Labor Day is observed in the 49 states, District of Columbia, Canal Zone, Guam, Puerto Rico, Hawaii, Virgin Islands. In Canada "Labour Day" is the official designation.

## NBC Officials Deny Charges Of Rigging "21" TV Show

NEW YORK (AP)—National Broadcasting Co. and producers of the Twenty-one television quiz show deny charges by a contestant that the program was rigged.

Herbert Stempel, who won \$50,000 on the show, contended he was coached on the answers before he went on the air and then was told to miss a question which enabled Charles Van Doren to eliminate him.

## Forecaster Promises Favorable Weather

By THE ASSOCIATED PRESS

Extended forecast for Aug. 30, through Wednesday, Sept. 3.

Eastern Penna., eastern New York, Midatlantic States, western Pennsylv.

Temperature will average near normal south and from normal to 2 or 3 degrees below normal north, warm over weekend, somewhat cooler first of the week.

## Chinese Commies Step Up Attack on Amoy Bay Islets

TAIPEI, Formosa (AP)—The Chinese Communists stepped up their artillery attack on the Tan islets in Amoy Bay today, hurling 7,120 shells into the 136 Nationalist-held acres in an hour.

It was the heaviest concentration in the nearly four years of vest pocket war in the Formosa Strait.

The bombardment heightened speculation that the Communists soon would try to take the islets. Only 2 1/2 miles from their port of Amoy, they are used by the Nationalists as lookout posts from which to alert naval forces blockading Amoy.

The Nationalist island fortress of Quemoy, 15 miles out from Amoy, got off relatively lightly. The Nationalist Defense Ministry said the Reds fired 783 rounds at Quemoy during a four-hour period beginning at dawn. Then the Communist guns turned on the Tans.

Peiping radio warned the Quemoy defenders to surrender or die. The sharp retort from Taipei was "come on and see what happens."

## Altoona Man Is Killed In Hunting Accident

UNIVERSITY PARK, Pa. (AP)—Gabriel Ferrara, 19, of Altoona, was killed Thursday in a hunting accident near Pine Grove Mills.

Dr. Charles J. Cullen, Centre County coroner, said Gabriel was hit in the head by a bullet from the .22 caliber rifle of his companion, Frank Weidlich, 22, also of Altoona.

## Mighty Atlas Launching Is Successful

CAPE CANAVERAL, Fla. (AP)—The prestige of the United States in the intercontinental ballistic missile field has been given a big boost by the latest successful launching of a mighty Atlas.

The 100-ton ICBM, the nation's most potent war weapon, blasted 3,000 miles through space after a beautiful liftoff Thursday night and hit right on target.

The second straight success with a fully powered Atlas was a major stride toward the Air Force's goal of developing an operational ICBM within the next two years.

The 85-foot "Big A" rose aloft atop a huge ball of white flame with a tremendous roar. Because the night was clear, the missile's flaming exhaust was seen in the sky for more than four minutes.

The Atlas, which is powered by twin booster rockets and a sustainer engine generating a total of about 350,000 pounds of thrust, was equipped with a radio-command guidance system for the first time.

Otherwise, the rocket was essentially the same as the one that soared 3,000 miles on a successful space journey Aug. 1. The first attempt to launch a three-engine Atlas failed July 19 when the missile burst apart violently 45 seconds after it took off.

## Governor Appeals for Holiday Safe Driving

HARRISBURG (AP)—Gov. Leader today appealed to all motorists to help prevent the Labor Day holiday from ending in tragedy for any family driving on Pennsylvania roads.

"Just one mistake behind the wheel or one infraction of our traffic laws could bring tragedy to some family," Leader declared.

But he said, cooperation from every motorist would help make a drastic cut in the death toll of 21 on this holiday a year ago.

The governor reported that every available state trooper has been assigned to traffic duty during the weekend and some will be patrolling the highways in unmarked cars.

## Seven Pennsylvanians Injured in Plane Crash

MINNEAPOLIS (AP)—Seven Pennsylvanians were among those injured Thursday in the crash of a Northwest Orient Airlines DC8E with 62 people aboard.

The two most seriously injured were Mrs. Anna Urbanik, 68, of Abingdon, who suffered a possible joint separation in the shoulder, and Pvt. Fred Russell, of Clairton, who sustained a fractured finger, sprained ankle and severe bruises.

Mrs. Urbanik was reported in fair condition. Russell was listed in good condition.

## Unemployment Claims Show Drop Fifth Week

HARRISBURG (AP)—Continued claims for unemployment compensation dropped during the week ended Aug. 22 for the fifth consecutive week, the Bureau of Employment Security reported.

New claims, which had been decreasing slightly in preceding weeks, took a slight upward turn during the week, the bureau said Thursday.

A total of 264,792 continued claims were filed during the week, compared with 274,879 the previous week. New claims during the week were 32,294 compared with 31,393 the week before.

FINANCIAL INDEX

PITTSBURGH (AP)—The University of Pittsburgh's Bureau of Business Research reports Pittsburgh area business last week about the same as the previous week.

The bureau said Thursday a small gain in the volume of trade offset a slight decrease in industrial production last week.

## Council Estimates 420 Holiday Traffic Deaths

CHICAGO (AP)—The last holiday weekend of the summer lured millions of motorists to the highways today.

Of the three summer holidays Labor Day perennially spurs the largest volume of travel. Whereas Memorial Day and July 4 fall on varying days of the week, Labor Day always is on Monday, assuring a three-day weekend.

Many Americans tie the holiday in with their annual vacations and arrive home just in time for the reopening of schools for the fall term. Others use the travel time to drive their older children and belongings off to college.

And millions of others see it simply as a last chance to visit beaches, fishing spots and other outdoor attractions.

The National Safety Council estimates 45 million cars will be on the move over the weekend.

The council said this heavy volume of travel could lead to as many as 420 traffic deaths, 70 more than the 350 killed on non-holiday weekends.

The council recommended that drivers reduce speed by at least 10 m.p.h., start trips early and aim for a safe, rather than a quick, arrival, and do no drinking.

## Outgoing Revenue Official Cites Biggest Task on Job

By LEWIS GULICK

WASHINGTON (AP)—Russell C. Harrington said today the biggest task in being internal revenue commissioner is not squeezing money out of reluctant taxpayers, but hiring the right people and promoting good relations with the public.

Harrington spoke in a news interview after deciding to end nearly three years as the nation's chief tax collector.

The 67-year-old Rhode Islander handed his resignation to President Eisenhower Thursday. The President regretfully accepted it, effective Sept. 30, and started looking for a new commissioner. Harrington said he doesn't know who his successor might be.

In a letter to the outgoing commissioner, Eisenhower spoke of the personal sacrifice he had often accompanied service like Harrington's. The revenue post pays \$21,000 a year—not a high salary for a successful businessman who maintains two homes—in Providence and Washington—and likes to take his wife along on travels about the country.

Harrington said he plans to stay in Washington, working for his old accounting firm of Ernst & Ernst.

An aide said the retiring commissioner would serve his company as a contact man with federal agencies—all agencies, that is, except the Internal Revenue Service.

## Former Meadville Man In Country Illegally

PITTSBURGH (AP)—The U. S. Immigration Service has ruled that a 23-year-old former Meadville man is in this country illegally.

Milton V. Milich, special inquiry officer for the service, said Carl Richard Van Dusen, presently in Western State Penitentiary, swore allegiance to a foreign nation when he enlisted in the Canadian Army in November, 1956.

Thus he gave up his U. S. citizenship, Milich said.

## Gotham Financier Acquires Control Of Herald-Tribune

NEW YORK (AP)—John Hay Whitney, U. S. ambassador to Britain and a New York City financier has acquired control of the New York Herald Tribune from the Reid family.

Ogden R. Reid, president and editor of the newspaper, announced Thursday that Whitney had acquired it and its European edition published in Paris.

The Herald Tribune and Whitney announced last September that he had invested an undisclosed sum in the newspaper.

Thursday's announcement by Reid said in part: The Reid family will retain a substantial interest in the Herald Tribune. At Whitney's request, Reid will continue as editor and chief executive officer until Whitney has had an opportunity to determine future management.

A statement by Whitney, released here, said in part that he proposes to preserve the newspaper's character "and to build upon its great traditions as an independent Republican newspaper."

Whitney said he intends to continue as ambassador "so long as the President desires."

## EMERGENCY LEGISLATION IS AVAILABLE

BULLETIN

LITTLE ROCK, Ark. (AP)—Gov. Orval Faubus today held the Arkansas Legislature on call until Jan. 10, a move designed to keep his ammunition against integration out of the reach of court action until he needs to use it. Faubus this morning signed a legislative resolution extending the session. The lawmakers plan to go home later today, but technically the historic special session will not end until January 10 when a regular session begins.

LITTLE ROCK, Ark. (AP)—Gov. Orval Faubus today held a fistful of powerful bills he believes he can drop on the table one by one, to block forcible integration of schools.

Apparently that's the way he plans to use the bills, if necessary.

A special session of the Arkansas Legislature Thursday whipped through final passage the six bills in Faubus' anti-integration program.

The question of whether the federal government will move to integrate Little Rock schools next month remains in abeyance. The U. S. Supreme Court heard arguments in the Little Rock case Thursday but put off a decision for two weeks.

## House Set Afire By Torch Used To Rout Bees

Firemen estimated \$3,000 damages at the J. W. A. Luce home this morning after a caretaker tried to rout a swarm of bees with a blowtorch.

All borough fire equipment from Central Station rushed to the house at the corner of Market and Fifth street about 11 a. m. after the alarm was turned in.

Witnesses said flames spurted from two holes punched in the upper walls of the cement-siding dwelling as firemen got at the blaze which roared in the partitions. Smoke filled the large house and water contributed to the damage.

Fast and effective operations by the fire department members was credited with saving the building. The bees were presumed to have gone up with the smoke.

At 12:19 p. m. borough equipment was called once again, this time to Warren Apartments where a fire was reported in a dryer. Firemen dismantled the machine and damage was confined therein.

At 3:26 p. m. Thursday, firemen were called to 204 Market street to wash gas from the street after a tank overflowed.

## Seasonal Increase in Price Of Milk Effective Sept. 21

HARRISBURG (AP)—A seasonal increase of one cent a quart for milk will go into effect in most areas of Pennsylvania on Sept. 1.

The commission Thursday issued a news release containing a typographical error which incorrectly set the penny boost for Sept. 21.

The commission said Philadelphia, its suburbs and Lancaster area will not advance their prices until Oct. 1.

At the same time the commission said the price to producers will be advanced 40 cents per hundredweight except for the Pittsburgh area where the price will be boosted 35 cents per hundredweight.

The areas to receive a 40-cent boost are: Shamokin - Pottsville; Scranton-Wilkes-Barre; Allentown-Easton; Erie; Harrisburg; Johnstown; Altoona; York; Williamsport; Lancaster and Reading.

The seasonal jump in prices is designed to offset the cost to farmers brought about through drying pastures which cause additional feed purchases.

The new price schedules for quarts of milk will be: Philadelphia, home .26, store .24; suburban Philadelphia .26, .24; Pittsburgh .27, .26; Shamokin-Pottsville .26, .25; Scranton-Wilkes-Barre .27, .26; Allentown-Easton .26, .24; Erie .26, .25; Harrisburg .25, .24; Johnstown-Altoona .25, .24; York .25, .24; Williamsport .26, .25; Lancaster .25, .24; Reading .26, .25.

**Waterfowl Dates Are Announced By Commission**

The Pennsylvania Game Commission has announced the coming seasons and bag limits for the hunting of wild waterfowl, coots and Wilson's snipe as approved by the U. S. Fish and Wildlife Service.

This fall the duck, goose and coot seasons will be open for 60 consecutive days, which is 10 days less than the seasons for the past two years. The dates are October 15 to December 10, inclusive. The shorter season reflects concern by the federal agency over a decrease in waterfowl populations as indicated by a lower breeding population and hatch of young birds on the northern breeding grounds during the spring and summer of this year.

However, the overall bag limits—4 ducks per day with a possession limit of 8; 2 geese per day with a possession limit of 4—remain the same as they have been during recent years. Only one wood duck may be bagged in a day, with a possession limit of one during the entire season. But the bag limits for ducks are marked by one important change. The daily bag during the 1956 season may not include more than two birds of the canvasback or redhead species. This means that a hunter can legally bag two canvasbacks or two redheads or one of each kind. After the second day of the season the possession limit may not aggregate more than four birds of these two species. A hunter

may take one hooded merganser daily, or have one in possession as part of his total bag. American and red-breasted mergansers are not included in the bag limits for other ducks. They have a separate bag limit of 5 a day or 10 in possession, either singly or in the aggregate.

Pennsylvania shooting hours for all waterfowl in the coming seasons are one-half hour before sunrise to sunset, except for October 25th (first day of small game season) when the opening hour will be 8:00 a. m., Eastern Standard Time. Hunters are reminded, however, that mourning doves may not be legally taken or shot at, even on this day, p. or to 12 o'clock noon, Eastern Standard Time.

In the counties of Bucks, Philadelphia and Delaware, and on the Delaware River bordering such counties between Pennsylvania and New Jersey, the season for waterfowl (ducks, geese, and coots) will open November 10, 1956 and close January 8, 1957.

Waterfowl hunters in the Keystone State are required to purchase both a Pennsylvania hunting license and a federal migratory bird hunting stamp. The "duck stamp" is available at most post offices. The federal stamp will cost \$2 for this season. The increase to \$3, recently approved by the Congress, will not take effect until July 1, 1957. Only a current Pennsylvania hunting license is required in the hunting of snipe, Wilson's snipe, woodcock, Wilson's or jack snipe, and doves.

Federal regulations prohibit the use of any shotgun capable of holding more than three shells, including semi-automatic and hand operated repeating

shotguns. The shotgun plug must be incapable of removal without disassembling the gun. Shotguns used in taking any migratory fowl may not be larger than 10 gauge. Rifles may not be used in taking migratory game birds, but such birds may be taken through the use of bow and arrow.

Other regulations in hunting waterfowl and migratory game birds prohibit the use of any electrical device or recording, live bird decoys, automobile, aircraft, sailboat, power boat, sailboat, or any device towed by either. Injured or dead waterfowl may be picked up by means of a motorboat, sailboat, or other craft having a motor attached if such craft is fastened within or tied immediately alongside of any type of stationary land, waterfowl, coot, gallinules and doves may not be taken under any circumstances by the aid of sail, or bait such as shelled or shucked or unshucked corn wheat, or other grains or other feed.

## Co. Motor Club Official Sounds Timely Reminder

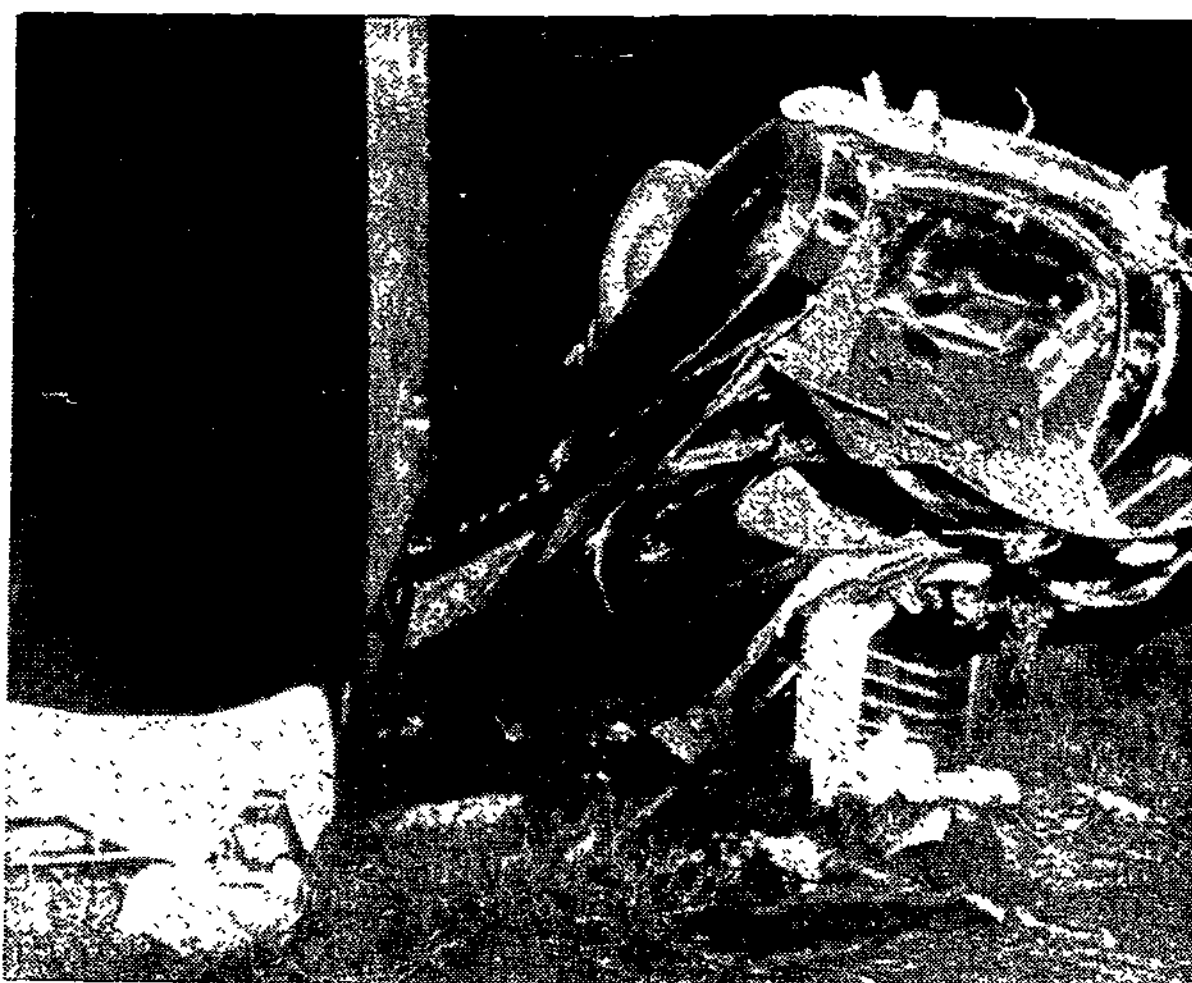

"When the bells ring for the opening of school in Warren borough and county next week, it is an appropriate time for a refresher course on safe driving practices," reminds Donald E. Schuler, president of the Warren County Motor Club.

"Strangely enough," says Mr. Schuler, "some of the worst offenders against ordinances and regulations set up to safeguard school children are the parents themselves. However, there are no perfect drivers, so all of us need to be reminded of our traffic responsibilities toward children."

The Motor Club official sounds this reminder to all motorists:

"On the highways—watch for those school buses—especially in the mornings and midafternoons. When one stops, going or coming, to take on or discharge passengers—you stop. Remember, there are only two situations in which a motorist is permitted to pass a stopped school bus: First, on highways having dual or multiple roadways, separated by a physical medial barrier, a vehicle on the opposite side of the medial separation may continue at a speed not to exceed 15 miles per hour, and second, vehicles approaching or overtaking a bus stopped in front of a school with the bus parked on the side of the street on which the school is located, may proceed at a speed not to exceed 15 miles an hour. In all other cases, vehicles must remain stationary until the children have entered the bus or have reached the side of the highway."

"When stopped for a school bus, don't go ahead until you

LAST WEEKEND—For 420 people this weekend will be their last, according to predictions. How will your Labor Day festivities end—lying on a stretcher beneath the mangled ruins of your car? THINK!

get the all-clear signal from the driver—when the yellow flashing warning light is turned off and the bus starts to move. Don't race around the bus, take it easy.

In cities—watch for children everywhere—not just in front of a school. And when you see police guards or School Safety Patrol children, travel even slower and watch for their signals. They're not trying to act like big shots or tell you what to do—they're simply trying to protect their classmates.

All rules and laws concerning safe driving practices near schools and school buses can be summoned up in the admonition, "Children should be seen and not hurt." When you see a sign reading "School . . . let it ring a bell."

## Religion in the News

By TOM HENSHAW

Associated Press Religion Writer  
Christianity is facing a stern test in Africa.

It's so stern, in fact, that Dr. Roy G. Ross, general secretary of the National Council of Churches, has warned that opportunities for Christian missionary work in Africa may soon come to an end.

The problem is basically the same as that which confronts the Western world politically—an aroused spirit of nationalism and a color-consciousness line that is being drawn from the opposite direction.

Why has African nationalism chosen Christianity as one of its antagonists?

Ben J. Marais, professor of Christian history at the University of Pretoria, South Africa, writing in the fortnightly Christianity Today, explains it this way: "For generations we Western Christians have become accustomed to the fact that the nominally Christian nations of Europe or the West were the masters of the world. . . .

"Ours was the religion of the conquering West, of Western man, the rulers of the world."

During the past 400 years, the power exercised by the whites over colored peoples has left a

terrible legacy of racial tensions," adds Chandran Devanesen, a professor at Madras Christian College in India.

The hatred built up by colored peoples, he says, "often makes them blind . . . to the real nature and purpose of the church as a fellowship which seeks to transcend all barriers of race and color."

The surge of nationalism also has sharpened the rivalry between Christianity and Islam, the Christian missionary's oldest organized adversary on the Dark Continent.

The Rev. John McGee, a Southern Baptist missionary stationed in Nigeria, reported recently that the Arab world is raising 50 million dollars for a campaign to make all Africa Moslem.

Islam, as it appears in Africa, is a difficult thing for Christian professional clergy. It has no central organization. It makes no organized effort to found schools, hospitals, missions.

Why, then, is Islam such a formidable opponent?

"Every Moslem is a practicing Moslem," says Dr. Erich W. Bethmann of Middle East House, New York. "He prays five times a day no matter where he is. He is a living witness to his faith. And he has no color complex."

## Theft From Mail Boxes at Top of Postal Crimes

Thefts of mail from householders' mailboxes again is at the top of the list of postal crimes, Postmaster General Arthur E. Summerfield said today.

Chief Postal Inspector David H. Stephens reported to Mr. Summerfield that postal inspectors caused 7495 arrests for mail crimes in the 1958 fiscal year, ended this past June.

A total of 7401 convictions—98.7 per cent—were obtained in cases taken to trial.

"This high conviction rate," Mr. Summerfield commented, "demonstrates how thoroughly postal inspectors investigate a case before they cause an arrest, and how effectively they operate when they find there is a violation of postal laws."

Postal statutes most often violated last fiscal year were those involving thefts from mail receptacles, particularly home mailboxes. There were 3,835 arrests in this category in fiscal 1958, compared with 3,287 the previous '57 fiscal year.

Mr. Stephens' report revealed growing numbers of criminals are victimizing householders in thefts from the home boxes. In an increasing number of cases, he noted, these criminals are dope addicts after money to buy drugs.

Lone operators or gangs of such thieves sometimes will ransack many mail boxes in an entire neighborhood, particu-

larly where there are large apartment developments that have mailboxes clustered together in the lobbies.

Those who receive regular government allotment or pension checks are often victimized, and their checks stolen, forged and cashed. Ultimately, they get their money, but there are often delays which involve hardship.

Several factors have produced more thefts from home mail boxes in recent years. In addition to the millions of new homes and millions of persons added to pension lists, there has been a growing tendency among merchants and businessmen to cash checks easily, often without making certain of the identification of the persons cashing the check, Mr. Stephens noted.

In addition to home mail box thefts, Mr. Stephens' report noted increases in mail frauds. At the top of the "best seller" list in the mail fraud fields, he noted, are such products as "miracle" weight reducers, "bee jelly" supposed to have magical curative powers, fake cancer cures and similar worthless nostrums.

The stilt, in proportion to size, has the longest legs of any known bird.

## CREDO FOR HOLIDAY DRIVING

Labor Day, the holiday which traditionally signals the close of the summer vacation season, is fast becoming the Death Holiday on the highways of this nation.

After the Labor Day week-end business wheels pick up momentum and families get ready to send their children back to school. This year it is expected that 450 adults and children will never go back to their jobs or go to school. This is the number of persons expected to die over the week-end as a result of fatal automobile accidents: in Pennsylvania alone more than 21 persons will lose their lives on the highways of the state.

Roy H. Park, head of the Duncan Hines Institute contends that the four F's are the cause of highway fatalities. What are the four F's? He lists them as: fatigue, fast driving, frustration and foolhardiness.

To cut down on fatalities he suggests the Hines credo: the four C's: courtesy, caution, common sense and compliance with traffic signs.

Noting that Labor Day is supposed to be a day of rest and relaxation, Park says that it has become just the opposite. Here's how:

Go somewhere close to home; plan your trip to miss the rush periods; figure on your trip taking more time than expected; take turns driving; use the less traveled highways; avoid the big beaches and parks—they will be jammed; don't try to set an endurance record; pull in early; take time to enjoy your meals; dine leisurely; that's half the fun of traveling—eating out!

## PRAISE DUE OFFICERS

Much praise is due area law enforcement officers who this week rounded up a pair of brothers from nearby New York State. Sheriff Larry Linder, Chief Deputy Don Allen and State Troopers Sgt. Donald Holmes and Cpl. Joseph Mastrian had been working on the case for months and finally were successful in rounding up the two who had burglarized 43 camps in the southern, densely wooded sections of Warren County. The difficulties of tracking down persons who worked under cover of darkness and trafficked only in relatively small items were finally surmounted by the diligence of the officers and county camp owners may breathe more freely today thanks to their perseverance. It was a joint effort, with a fine conclusion.

## WHERE CREDIT IS DUE

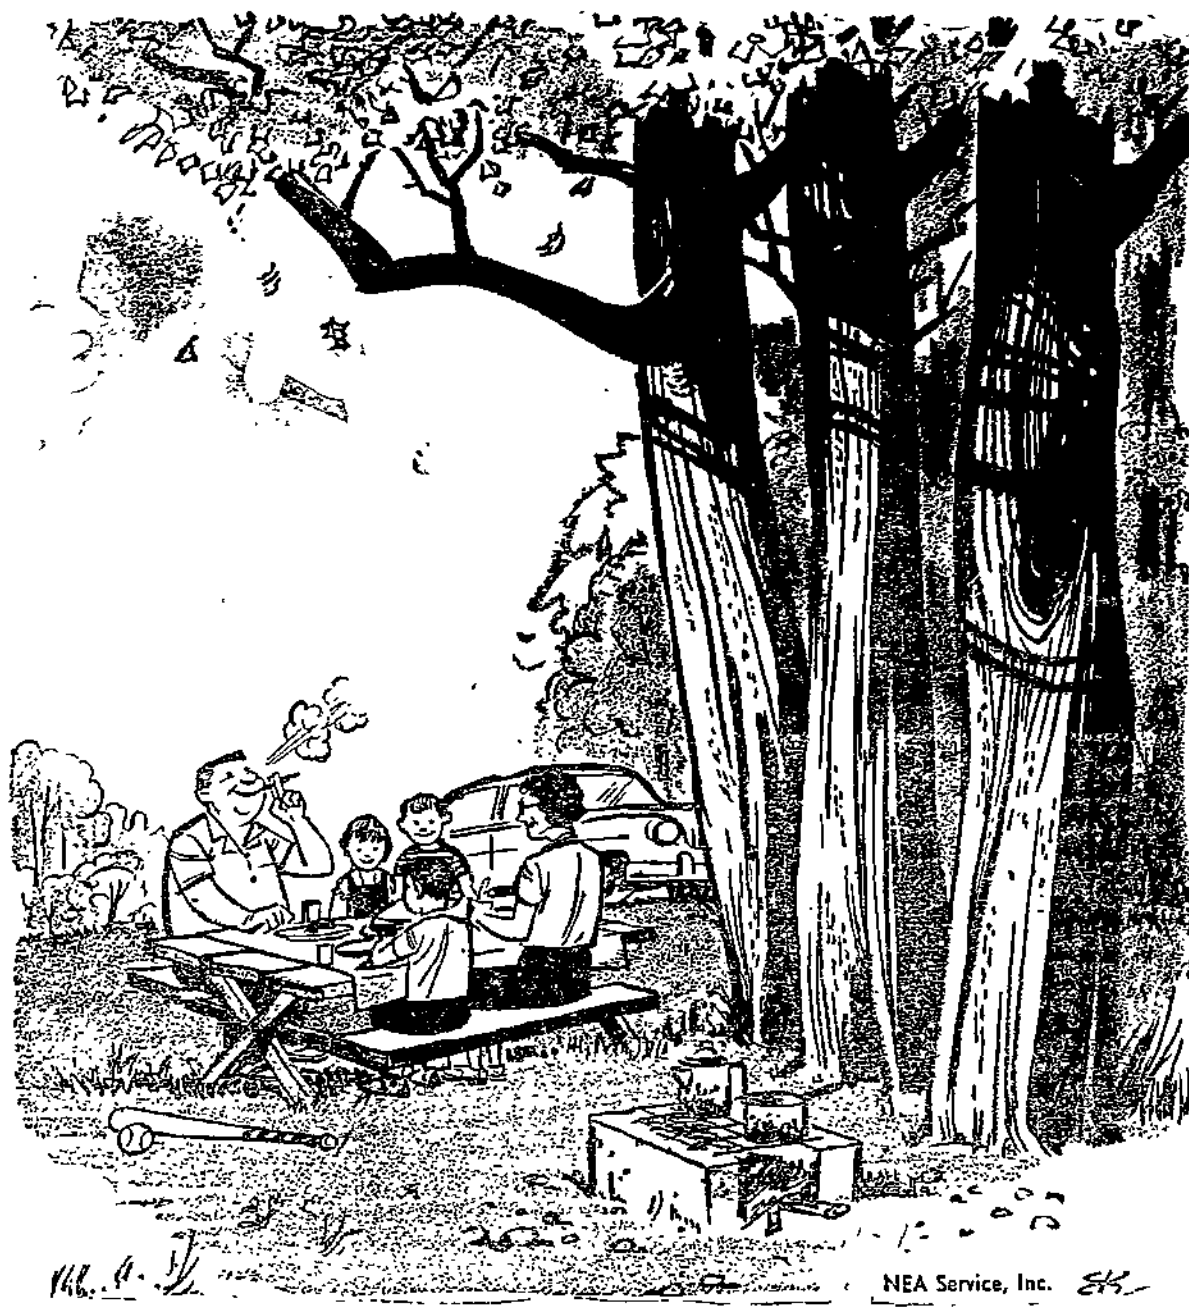

Warren Borough Fire Department emergency crew and North Warren Volunteer Fire Department drivers can rightfully claim their share of any extra credit existing today. According to witnesses, firemen responded almost immediately to a call at the West Side yesterday when an elderly man fell and injured his head. Firemen's attention was said to be efficient and professional as the pnculator was used moments after being summoned. Front and center only minutes later was the North Warren ambulance.

## Marlow Looks At TODAY'S NEWS

By JAMES MARLOW  
 Associated Press News Analyst  
 WASHINGTON (AP)—The Little Rock school board wants the Supreme Court to delay integration at Central High 3½ years because of the trouble integration has caused. But the board hasn't taken the obvious steps itself to end the trouble.  
 That's the Eisenhower administration's argument, as expressed through the Justice Department's Solicitor General J. Lee Rankin. He told the court Thursday the trouble-makers in Little Rock are limited in number but that:  
 1. The board could have but did not seek a federal court injunction in Little Rock to stop any outsiders from interfering with the school's orderly integration. Violation of such an injunction could mean jail.  
 2. The board could have expelled the students causing trouble inside the school — Rankin said only about 25 of them took part in sluggings, spitings and name-calling — but bounced only two.  
 Rankin joined Thurgood Marshall, lawyer for the National Assn. for the Advancement of Colored People, in asking the court to refuse the 3½-year delay and order integration resumed immediately. Integration in Central High started last year.  
 The two men argued that to delay integration because of the trouble-makers would be like an

invitation to any group, which disliked a court order anywhere, to block it by violence.  
 The most of the board's lawyer — Richard C. Butler — could say was that continued integration at Central High would mean more trouble, the return of federal troops and interference with Little Rock's education program.  
 This didn't seem to impress Chief Justice Warren, who asked Butler: "Can we afford to defer a program of this kind merely because there are elements in a community that will commit violence to prevent it from going into effect?"  
 It seems like a good guess the court will turn down the board. Rankin further, told the court that before the school board sought a delay there was no evidence it had asked the help of any state or city officials to cope with the disturbances of which it complained.  
 In its special session Thursday, the court heard arguments from all sides but postponed a decision. Here is a brief explanation of the legal situation which by now is getting complicated:  
 Before Central High's opening last year, the board had prepared a plan for integration. The school superintendent thought it could be carried out peacefully. This satisfied Federal Dist. Judge Ronald Davies, who ordered integration to begin last September.

## Labor Day --- of Rest

## Here and There

Labor Day is like a fresh start. After an exuberant week-end, the nation settles down to its normal nine-months-of-the-year routine. The holiday itself is a glorious hail and farewell to the warmth and pleasures of the summer. Parks and pleasure spots are loaded. Autos jam roads like great mechanical snakes with everyone who is here wanting to go there and there's here. But the day after, most of us shake the sand out of our hair and there is a general feeling of "let's get on with it." In most families, it is the children that call the tune. It's back to school for them and, truthfully, most of them are glad to get back to a busy routine. The little boys like the excitement of seeing old pals and the little girls want to wear their new dresses. So away they go. Back home, mother has been on edge due to the unkempt appearance of the house, a natural by-product of informal summer life. There's uninterrupted time now to dig in and get that old tiger, housework, whipped back into its cage where it can be more easily managed. Meanwhile, down at the office, the stresses and strains of half the force being on vacation are over. You can get people on telephones and it's a relief that the machine is again off half speed. Labor Day is always a new start for business. The public's wandering attention is again focused on the home and community life. The hustle and bustle are back in the stores and market places. It is an especially meaningful new start for business this year. Another page in the great suspense story, "Boom or Bust," is being turned. Everyone holds his breath while the cloth masks of the new model cars are whipped off with a fanfare. Will business snap back by Christmas? So the nation is vi-

tally interested as trade and industry spit on their hands, get a firm grip on the hammer and start building the economic structure for the '58-'59 season. Another group in our great American community is singled out to consider this Labor Day as a starting place for great endeavors. And that is the group this holiday is named after—Labor itself. This powerful, surging people's movement which we honor today must dedicate itself anew to hold to the traditions of the past and conduct itself for the general welfare. During the past 12 months some indelible black marks have been affixed to Labor's record, largely the sneaky fingerprints of too-powerful leaders, irresponsible and vengeful. The nation hopes that Labor, too, this year will rally behind the more mature of its leaders and go on to even greater heights and glories in the name of the American workingman. Okay, Father Time, we're sunburned, tired of hot dog meals, and ready to settle down to business. We want to see what's going to happen. Let's go.

jury and death cases, the great bulk of the casualties resulted from rear-end collisions, traffic light violations, failure to grant the right of way and similarly prosaic actions by drivers who in seven out of eight cases were not very far from home. Contrary to expectations, the totals bulked as large for Saturday and Sunday, the so-called "middle period" as for Friday and Monday, indicating that the greatest hazards are not necessarily involved in a frenzied effort to get to or from some vacation spot. There was not a single report of a safety belt in use in any of the cars involved in the study. Only one out of five of the accidents occurred on super highways or divided highways. In only one out of 20 cases was drinking reported. In only three out of 100 cases were any mechanical defects reported. Almost half of those injured or killed were under 30 years of age.

In the days of the Roman Republic, the people looked chiefly to their senate to defend and guide them. The word "senate" comes from the Latin word for "old" or "old man." It indicates the Roman view that the senate was to be composed of wise, elderly men.

## Business Mirror

By SAM DAWSON  
 NEW YORK (AP) — If you take your wife out to dinner you can get out of helping with the dishes—unless you forget your billfold. But the dishwashing and dish-breaking problem is still there. It's one of today's big headaches for those in the restaurant and hotel business.  
 They report replacing as much as 85 per cent of their cups and 47 per cent of their saucers annually. The toll varies widely. Some eateries say they replace less than 15 per cent of all their tableware stocks annually. A few report replacing up to 150 per cent.

This can eat into profits almost as fast as Junior can into a hamburger. Those who cater to the public's hunger have tried many ways of cutting this cost. Some of the larger ones report that dishwashing machines have cut their breakage costs by one-fourth to one-half. A few say they can see little difference in this respect between the mechanical and the human washer. Some have turned to plastic

tableware and report spending considerably less of their annual gross dollar volume now for replacements. A few have turned to metal tableware and find breakage a small item with chief worries dents, scratches or polishing. To look into trends in the commercial feeding field, a trade publication, restaurant equipment dealer, has tabulated replies from some 300 restaurants and hotels queried about their problems. The majority say that breakage cost is a major item in their budget but that quality and style and customer preference still is high on their list of considerations when choosing tableware.

The higher priced the menu the fancier the customers expect the place settings to be. Some managements comment they expect to pay more for good chinaware that goes with their decor than for the standard grades and one says, "we buy the best — it lasts longer." Now someone should survey the housewife on her tableware replacement problems and on the breakage ratio between male and female dishwashers in the home.

## Boyle's Comment

By HAL BOYLE  
 NEW YORK (AP) — Gary Cooper still rides tall in the saddle of time. After 30 years of stardom, the veteran actor still seems as ageless as the sagebrush he has ridden through so often in making more than 100 major films. What is the secret of his durability? Cooper said it was very simple. He just had to learn when to stop saying "giddyap" and start saying "whoa!"  
 Two bouts of illness, he said, taught him this lesson. One came in 1931, when a siege of jaundice, after years of overwork, almost ended his career. The other was an ulcer attack in 1949. The two experiences taught him the value of relaxing.  
 In 1931, a doctor warned him he had to quit for a while if he wanted to stay alive. Gary had been working on pictures night and day, and his weight had dropped from 180 to 147.  
 "I dropped everything, broke my contract, went to Africa and did nothing but loaf and hunt for six months," he recalled. "It was one of the happiest times of my life."  
 Here's his two-point program for mental and physical health: "Try to keep from making boneheads. Then you won't have so much to worry about."  
 "You owe it to yourself — and

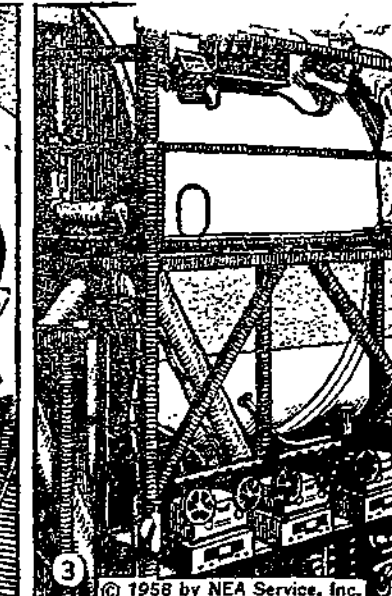

everybody around you—to keep in the best possible shape." Today Cooper is one of the most impressive. He sees acting as a satisfying career in itself, and has no deep urge to become an active director-producer, although he picks his own roles. "Actors are happier now than when everybody in the movie business was riding a great big gravy boat," he observed. "You know, one studio in its offices here had an executive dining room that cost it \$8,000 a month. That kind of thing is all over now." "But actors are happier than in the old days because they have more independence. They don't have to do everything everybody tells them. They have more of a choice in their lives." "But the movies are really a wonderful business. In politics a man often has to step on other people. To get elected he may have to make so many promises that when he finally does get into office he can't move." "I am very proud of the movie business, and I respect it. You don't have to double-cross anybody to get ahead in it, you don't have to attack people, or put the squeeze on them." "You do have to stand up and fight for your own ideas, but isn't that good for anybody?"

## Hollywood News

By JAMES BACON  
 AP Motion Picture Writer  
 HOLLYWOOD (AP)—It's nice to win a beauty contest but it's better to lose—if you want to become a movie star.  
 The history of beauty contest winners has been dismal in Hollywood, but losers go on to stardom. Take Vera Miles, who lost out in the Miss America contest some years back. Even she can't remember the name of the girl who won the year she entered.  
 In the recent Miss Universe contest, Emy Norlund as Miss Denmark wasn't one of the five finalists. Yet she is the only one of the 79 international beauties who wound up with a movie contract.  
 Max Arrow, talent director at Columbia Pictures, watched the telecast of the Long Beach beauty pageant. It was a miniature screen test for the 20-year-old Emy.  
 Arrow had a look at another beauty contest loser a few years ago. He took her to the late Harry Cohn and urged that she be signed. That was Kim Novak.  
 He has the same feeling about Emy—also a blonde. She's getting the same buildup that Kim got four years ago. Columbia even fixed her up with a room at the nearby Studio Club, the YWCA-

like habitat that Kim called home even after she reached stardom. Emy's selection for a contract indicated a trend in Hollywood beauty, especially as it relates to box office. A few years ago, every new starlet signed by a studio could roughly fall into two categories. Either she was a Marilyn Monroe type or a Grace Kelly type.  
 Emy, a shapely blonde with an intriguing accent, is a Scandinavian. Brigitte Bardot, the Bardot category is a blending of the Kelly-Monroe types with that added something that only foreign girls have.  
 Emy had no dramatic training before Columbia signed her. The daughter of an architect, she was a top fashion model in Copenhagen when she won over several hundred girls for the Miss Denmark title.  
 "I didn't think I would ever get to the United States as a tourist but here I am under contract to a big movie studio. It's incredible," she said.  
 But then, how many tourists look like Brigitte Bardot?

## OUTWARD TO THE STARS (10)—Loneliness

(1) Few men so far have spent any considerable amount of time in what can be considered space. On Aug. 20, 1957, one man, Air Force Major David G. Simons rode a research balloon to a record altitude of 102,000 feet. At that distance 99 per cent of Earth's atmosphere was below him. He experienced every situation a man in a rocket satellite will have to face, except weightlessness and the initial acceleration—and high-speed re-entry.  
 (2) A camera inside the balloon capsule took a picture like this of Major Simons. Upon landing the major said that his most striking impression

was the feeling of loneliness in an "unfriendly realm." How much more so it will be for the first pilot of an orbiting satellite.  
 (3) To see just how men will be able to live and function inside the confines of a spaceship, the Air Force has been simulating space voyages for almost four years at the School of Aviation Medicine at Randolph AFB, Tex., and also at Wright Air Development Center in Dayton, Ohio. Above, at Dayton, a "ground crew" monitors a mock-up spaceship, observing the effects of a five-day isolation test on the "passengers" inside.  
 (4) In the cramped interior of the cabin, con-

ditions are made to approximate those that will be met in actual space. Tests in one-man chambers have also been conducted.  
 The first space "man" could be a woman, for at least one member of the "weaker" sex has outperformed men in isolation tests at the Wright Center.  
 Achieving fame at Randolph Field school was Airman Donald G. Farrell, who successfully completed a seven-day "space flight" inside a capsule, breathing an entirely synthetic atmosphere. He was, to all intents and purposes, alone in space.  
 Next: The Re-entry Problem.

## Golden Wedding Day

Mr. and Mrs. Allie Kohler, 7 Jackson street, North Warren, were honored Sunday by their children in celebration of their 50th wedding anniversary. Mrs. Kohler received her guests in a gown of gray lace over pink satin, with which she wore a corsage of golden yellow rosebuds. The table featured a three-tier anniversary cake seen in the Stokes Studio picture here and cut by Mrs. Kohler's sister, Mrs. Lorena Dickerson. Shirk Betts, a granddaughter, poured.

ed; another granddaughter, Carol Johnson, presided at the punch bowl; a third granddaughter, Jane Still, was in charge of the guest book.

Mr. and Mrs. Kohler were married August 27, 1908, by the Rev. D. L. Caldwell of Warren Presbyterian church and have since lived in Jackson street, North Warren.

They have three children, Mrs. Harold Still, Clayton and Edward Kohler; also eight grandchildren and three great-grandchildren.

The couple received many nice gifts, including a purse of money.

Guests were in attendance from North Warren, Warren, Akeley, Russell, Corry, Union City and Buffalo.

## Marlow Looks At the News

(From Page Four)

But then came the mob violence which kept the Negro children out of Central High. President Eisenhower sent in federal troops to see that Davies' order was carried out by holding the mob in check and getting the children to school.

The troops remained throughout the school year and the Negroes went to classes. But tension increased. There were unpleasant incidents inside the school between the white and Negro students.

In June the board went to another federal judge — this time Harry J. Lemley — and asked him to set aside Davies' order and postpone integration. Lemley agreed and ordered integration delayed 2½ years.

Then the NAACP moved in. It asked the next higher court, the U.S. 8th Circuit Court of Appeals in St. Louis, to overrule Lemley and order integration continued when Central High opened this September. The Circuit Court did. The next step was up to the board.

There was one more court, the Supreme Court, to which it could appeal. This required time. To give the board the needed time the Circuit Court held up on its own order to continue integration by granting what's called a stay.

The next move was up to the NAACP. It asked the Supreme Court — before the board could file its appeal — to set aside the Circuit Court's stay order and put into effect the Circuit Court's order that integration must be continued.

Thursday the Supreme Court handed down no decision. Instead, it told the board to file its appeal by Sept. 8 and that the court would hear more arguments Sept. 11.

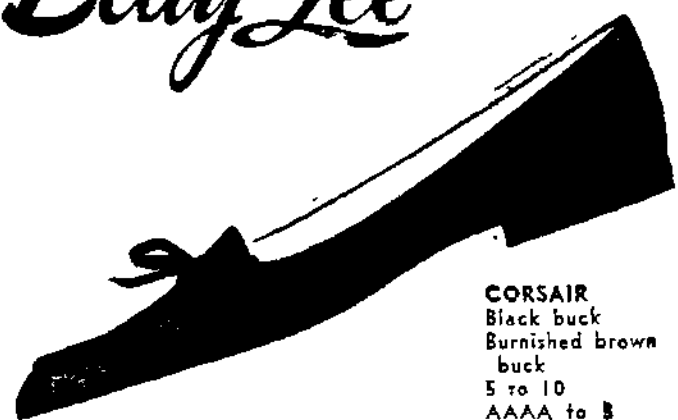

This was a hurry-up move by the Supreme Court to get to a decision before Central High starts its fall term. Thus, by acting on the appeal, the court can clear up the whole business on or soon after Sept. 11.

### PENNA AVE BAPTIST

Phil Hook, newly-ordained, will speak at the 11:00 a. m. service; his brother, Paul, will be the speaker at 7:30 p. m. Both from Dallas, Texas, they are sons of Pastor and Mrs. Ernest A. Hook.

## Flower Show Entrants Are Advised Concerning Conditioning of Blooms

The Flower Show on Friday, September 5, to be held in the Woman's Club auditorium under co-sponsorship of the Woman's Club and Warren Garden Club, promises to be a real community event.

Vegetables, flowers and fruits, in many different classes, will compete for hundreds of prize ribbons. The committee wishes to emphasize, once again, there is no entry charge for exhibitors and no admission charge to the public.

Entrants should be at the club prior to 10:00 a. m. Friday. The club will furnish containers for all horticultural exhibits, but entries in the arrangements classes should have containers clearly marked on the bottom with the owner's name.

Many merchants in the area are displaying placards listing the various classifications for the show. Anyone who missed the published list in the Times-Mirror may refer to these posters or look for a reprint of the list in Tuesday's paper.

It is the hope of the committee exhibitors will follow the simple directions listed below for conditioning flowers. There is always the possibility of loss of a blue ribbon because the plant material became wilted

before the judges had looked at it. Proper conditioning of flowers plays an extremely important part in any arrangements. To prolong the life of flowers, understand them.

Always keep in mind that flowers and foliage are dependent on water and should have it as soon as cut or very soon thereafter. Early morning or evening is the best time for cutting and the flowers should then be placed in warm water and allowed to "harden" overnight or for several hours. Sun, other heat and circulating air evaporates the water in the cool, moist place.

Always cut the stems with a sharp knife to prevent water bubbles. Cut the stems at an angle so that only the point of the stem will rest on the base of the container and thus the water can freely enter the tubes to supply the bloom and foliage. Remove all excess foliage, and make sure containers are spotlessly clean. Use lukewarm water in the container, rather than cold.

If these suggestions are followed, arrangements will be much longer-lasting and more attractive. Proper conditioning is also one of the points upon which arrangements are judged.

### MASTER POINT GAME

Marconi Bridge Club reminds it will hold its regular weekly tournament at 8:00 p. m. Labor Day and cordially invites all area players to participate in the monthly Master Point game at that time.

Many players throughout the Ny-Penn Unit will be vying for coveted Master Points in Pittsburgh over this Labor Day weekend for an event that has regional rating and points necessary for Life Master attainment.

Among those attending from Warren will be D. L. Vetter, James R. Valone, M. A. Kornreich, Mrs. Shirl Glass. Word comes from Jamestown that Lou Wallace and E. J. Rupp will be playing the Men's Pair event today and the Open Pair on Sunday; R. H. Larsen will partner with Mrs. Hazel Foulke, Erie, for the Mixed Pair event, Saturday and with Morgan, Beverly, Corry, for the Open Pair match.

### FIRST METHODIST

In the 11:00 a. m. service, Dr. A. C. Schultz will preach on "For What Do You Labor?" George Johnson will play Sonata III, "Allegro con Brío" by Gault and "Meditation" by Morrison; Jack Haight will sing "Prayer" by Curran and "Deep River", a spiritual.

### CLASS MEETING

## Family Conference of Middle East Churches

There will be no Sunday services in Bethlehem Covenant church, because of the Family Conference of Middle East Covenant Churches in session at Chautauqua Institution.

Services are being held there each morning, with Raymond Nelson as speaker. Each evening, Dr. Clarence Nelson, president of North Park College and Seminary, is the speaker. His theme for the week is "Our Commitment—Is it Christian?"

Sunday promises to be a great day of spiritual inspiration, with good music under the direction of the Rev. and Mrs. Raymond Nelson adding much to all the services.

This Saturday, CWA will have a program and refreshments at Mission Meadows at 2:00 p. m.; Sunday services at Chautauqua follow the usual hours, 10:00 a. m. and 7:45 p. m.; Wednesday, the local church will have prayer fellowship at 7:30 and choir rehearsal at 8:30.

## Gathered From The Party Line

LaVerne Bruto, Warren, was one of three bridesmaids for her cousin, Sandra Ann Bellardo, in St. James Catholic church in Jamestown last Saturday. Others from Warren attending the wedding and reception were Mr. and Mrs. Joseph Bruto.

Mrs. Ann Draheim and Mrs. Mabel Rapp will leave Saturday morning for a week's vacation with their nephew, Paul M. Nelson, and family at Mentor-on-the-Lake, O. Mr. Nelson has recently been transferred to Cleveland from Loganport, Ind., where he has been located since 1949.

Listed among recent visitors at Lincoln Caverns, near Huntingdon, Pa., have been Mr. and Mrs. R. Schmiedel, 129 Biddle street, Warren.

Sylvia Juhano has returned home after visiting Mr. and Mrs. John Cappello at Kane. Nancy Cappello, in Warren for a few days' visit, has also returned home.

Mr. and Mrs. Norman Vaughan, St. Catharines, Ontario, have been here to visit their cousin, Mrs. Samuel King, 18 Crescent Park.

George Lott, here from Los Angeles, Calif., for a few days' visit with cousins and old friends, left last night to spend a few days with his brother, Foster, in Philadelphia before returning to the west coast. "Bud", as he has always been known to his many friends, continues his musical interests and is organist in a large church in Santa Monica. Making his headquarters with Miss Katherine Lott, 101 Fourth avenue, he was entertained informally by a number of friends and had the pleasure of playing for them in the home of Patty and Dick Smith, Market street.

### C. D. OF A. MEETING

The initial fall meeting of the Catholic Daughters will take place next Wednesday, September 3, at 8:00 p. m. in St. Joseph's Hall. Plans will be completed for a card party to be held September 16 with Mrs. Ann Suppa and Mrs. Mary DiPierro as co-chairmen.

### PRACTICAL NURSES

The initial fall meeting of Licensed Practical Nurses will be held at 8:00 p. m. Wednesday at the YMCA. It is most important those interested in taking the 64-hour refresher course be present, or call Mrs. Patchen, 2135-M, afternoons.

### FIRST LUTHERAN

## ★ WASHINGTON COLUMN ★

## 86th Congress Will Face Showdown on Tax Increase

BY PETER EDSON  
NEA Washington Correspondent

WASHINGTON—(NEA)—The possibility of U. S. tax increases next year must now be faced squarely.

Political consequences of such a proposal from the Eisenhower administration—which came into office pledged to cut taxes and reduce government expenditures—are tremendous.

As Treasury Secretary Robert B. Anderson told Senator Harry F. Byrd, Finance Committee Chairman: "It would simply be to say that we would not rule out the possibility of changes in the tax structure which might increase the revenues of the country."

This is a most carefully worded statement. It does not say flatly there will be tax increase recommendations to the next Congress. But it leaves the door open.

Secretary Anderson's position is that the Treasury must keep itself in a flexible position to meet economic changes.

THIS WAS THE position he took last winter when the recession was really beginning to roll.

Congress has cut taxes about half a billion dollars more than the administration budgeted. Biggest cut is the freight tax repeal. It will cut revenues 400 million this year, 500 million next year.

Small business taxes were cut 260 million dollars. This is 140 million dollars more than budget recommendations.

Admission tax cuts will cost the Treasury seven million dollars for a part of this year, 25 million dollars over a full year. Other miscellaneous excise tax cuts will cost another seven million.

THESE ALL ADD UP obviously to no multi-billion dollar tax cuts such as were shouted for last winter.

By the same token, if business booms and government spending can be reduced, the Treasury hopes that it can avoid recommending any multi-billion dollar tax increases next year. But two factors make this a possibility.

One is that tax collections for this fiscal year are expected to be down about seven billion dollars.

The other factor is that government expenditures for the current fiscal year will be about five billion higher than estimated.

Most of this is due to increased appropriations voted by the session of Congress just ended, says Budget Director Maurice H. Stans.

Military expenditures will be up 500 to 700 million dollars on top of the 500-million-dollar increases asked last January.

Agriculture expenditures will be up 500 million dollars to support this year's bumper crops.

Housing expenditures will be up a billion dollars.

Government pay increases will cost 600 million.

The postal deficit will be 500 million dollars more than anticipated because postal rates weren't increased by Congress enough to cover postal pay increases it voted.

OTHER INCREASES—for speeded-up highway construction, Defense and interior building projects, public works, aid to schools, small-business investment, atomic energy and the new space agency—add up to another billion.

The net effect of greater expenditures and lower tax receipts is a 12-billion-dollar deficit for the fiscal year ending June 30, 1959.

The only ways to correct this situation and get the budget back into balance again are either to cut government spending by 12 billion dollars, raise taxes by 12 billion dollars—or make a split combination of both.

### TWISTS, PULLS AND SHOES—

## Unorthodox Scotswoman Is Live Wire Artist

BY EILEEN SNODDY  
NEA Staff Correspondent

NEW YORK—(NEA)—Valerie Clarebout looks like an artist, lives like an artist and talks like an artist. It would be a shock to find that she wasn't.

Therefore, why shock people? She is an artist, but of a new ilk—a three-dimensional wire artist which means she twists and pulls and shoves 3,000 pounds of aluminum a year, plus a few hundred more of brass and copper wire, into delicate figures.

After a hard day's work, she has a consolation. She is never alone in her Greenwich Village studio for on the walls of the barnlike workshop are deer with muscles bunched for flight. And also hanging rakishly are angels. The latter would recall to the millions who saw them her winged angels which graced Rockefeller Plaza promenade for Christmas of 1954.

Her blue eyes twinkle as she admits that life in these United States is much better now than when she came from England six years ago. She had \$15 in her pocket and samples tucked under her arms.

SHE ENJOYS telling stories about herself and does a good job of it. She related how she became the talk of Buffalo once because she arrived in the train station at 4 a.m. and proceeded to curl up and sleep on the floor. "I may be untidy in my life," she chuckled as she looked around colorful living quarters behind the studio, "but I am always punctual and methodical in my work."

From this she went on to score artists who used temperament as

A graceful wire angel soars on the wall over Valerie Clarebout's head in her barnlike Greenwich Village studio.

an excuse for not delivering a commission on time.

"An artist's temperament should go into the work and not into the delivery of the work. Guess it is just my Scottish nature that leads to my punctuality."

Miss Clarebout began sculpturing in other materials before she shifted to wire. The transition came while she was on another job.

seems cold to a viewer and admits to a tongue-in-cheek humor which can be seen in the twists and turns of her wires.

MANY PROJECTS that help pay the rent are definitely commercial and dull, she admitted, and then told how she overcame this.

"I approach such a job by creating a new process with which to work which takes all dullness out of it."

Always busy, she says her day is 6 a.m. to 6 p.m. but often begins earlier because she lives above a Greenwich Village nightclub.

"And once they wake you up, you might as well go to work." Among four projects going, she is doing her first mural—of wire and tiles—for a public building. It is for a junior high school in Rockaway, Queens.

Unlike many artists, she has never seen the work she has done for department stores, restaurants and public buildings throughout the United States.

Although her jobs keep her hopping, she does have a hobby besides mothering two dachshunds . . . learning to drive. Presently, getting a license seems in the dim future. "I've failed two tests so far," she said.

But being behind in her luck doesn't seem to faze this Bea Lillie with a Scottish burr.

She can always think back to the \$1,000 advance check for her Christmas angels in Rockefeller Plaza. The day she received it, she was broke and living on cheese, macaroni and tea. But she continued this diet another two days. No one would cash the check. It was Saturday and the banks were closed.

"Oh, what a beautiful piece of wire. May I take it home?" was the clarion call to her present bread-and-butter work. But even as a school girl she used her artistic talents ingeniously. She made a deal with fellow students to do her homework in history and geography in return for a monogram or drawing. And she is still swapping. The latest—her work for a crazy quilt.

She denies that her work

## Writer Says Survey Shows Women Rate Males as Tops In Purchases of E and H Bonds

By CYNTHIA LOWRY  
Associated Press Newfeatures Writer

NEW YORK—Women have known it all along of course, but now it has become officially established:

Women admire men more than they admire other women. Men admire men more than they admire women.

This unanimity of opinion concerning the total admirability of the male proved out, in a recent survey of 1,602 men and women of varying ages, occupations and geographical distribution through the nation.

Basically, the study—financed by the Brewster Foundation but designed by a Columbia University professor—was made to find out whether the word "moderation" has pleasant connotations. (It has.) But the survey also turned up some tantalizing statistics concerning basic attitudes of men toward women and vice versa.

For instance, 65 per cent of the women queried said they admired men more than women. Only 35 per cent of the men said they most admired women. It will come as no surprise, however, to the gentle sex to learn that when a man does find a woman most admirable

she is likely to be a good five years younger than the woman admired by other women.

Least the gentlemen get too puffed up, however, it should be added quickly that female admiration for the male declines steadily from a high point reached when she is 21 to a low which comes when she's around 40—and stays steady thereafter.

Men, on the other hand, think highly of their own sex until doubts begin to assail them at age 21. They do recover some of their good opinion of themselves in later years.

But everybody loves the housewife, the study statistics show. That is, everybody except women over 40, whose greatest admiration is reserved for career women.

Getting down to specifics, the participants in the study indicated just exactly what qualities they found so admirable. The women were told to check descriptive words about men contained in a list of 300, ranging alphabetically from absentminded to zesty. They most often picked understanding, masculine, kind and ambitious. The men, given the same choice about women, elected affectionate, healthy and gentle. Women

## Increase Shown In Purchases of E and H Bonds

Pennsylvanians purchased U. S. Savings Bonds, Series E and H, amounting to \$42 million last month, up 15 per cent over last year. This is the highest for any one month in 1958 since January when purchases reached \$43.5 million.

Total dollar volume for the year to date is \$269 million. This is \$19.5 or 8 per cent more for the same period a year ago. National sales were up 5 per cent for July and 7 per cent for the year.

Purchases of E and H bonds by residents of Warren county were \$98,137 during July, it was announced by H. W. Conarro,

said they liked other women who were understanding, sociable and natural. "Friendly" was high on everybody's lists.

On, yes, and about moderation—the subject that started the whole thing: the women split even on the belief that they are the more moderate sex. Young men and business men believe the male to be the more moderate, but the older a guy gets the more often he is inclined to cast his vote for the women.

chairman of the county's committee for U. S. Savings Bonds. The Treasury Department will emphasize the sale of U. S. Savings Stamps in the weeks ahead, according to Charles S. Krumrine, state chairman.

According to the Treasury there are estimated to be 7 million students in schools where they can buy stamps and bonds. The Treasury looks upon the School Savings Program in terms of long range objectives with benefits both to the individual saver and the nation.

"With a fast-growing youth population, it is considered increasingly important for the Savings Bonds message to be carried to young people, and through them to their families and their community," Krumrine states.

## Dorothy Roe Says---

By DOROTHY ROE  
Associated Press Women's Editor

Women are sick and tired of staring night after night at TV westerns where the fellow never gets the girl, says Helen Ainsworth, Hollywood's only woman movie producer.

"Women want romance," says Miss Ainsworth, who started out as a talent manager and now is producing under her own banner, in partnership with her client, ac-

tor Guy Madison. "Any fool should know that, but I guess it takes a woman to make it clear to the sponsors and networks."

"Even the actors are getting fed up with all these rootin'-tootin' Westerns. Why for eight years, starring in these rough, tough, he-man shows, Guy Madison hasn't kissed a single girl-on-camera, that is."

Miss Ainsworth, a hefty blonde

with a sentimental smile, is pretty proud of her distinction of being the only woman producer in America's film capital. Says she: "I'm just naturally emotional, but I think it takes some of that to get some heart into movies. Of course you have to have plenty of tough business sense too. After all, movie production is one of the country's biggest businesses. But it can't be all business."

"For instance, when I take on a new client, I'm not only his business manager, but also practically a nursemaid, confidante and mother."

"Actors are sensitive people, and you have to handle them carefully, build up their confidence, keep them ticking."

Among Miss Ainsworth's discoveries are such stars as Carol Channing, John Raitt, Howard

Keel and—of course—Guy Madison. Her first TV commitment under the new production company will be a weekly series starring Madison in a romantic period role.

## The POWER of FAITH

by Howard Brodie

### HOW AMERICANS WORSHIP

#### The Buddhists 4

If it seems strange to see Buddhism listed as an American faith, remember that freedom of religion has attracted to our shores many peoples who have brought with them from distant lands their unique beliefs.

With more than half a billion followers, Buddhism is the world's most widespread system of worship. Its temples have arisen in some of our larger cities, as have Mohammedan mosques and other exotic edifices.

As a religious artist intent on seeing how Americans seek God, I recently visited a Buddhist temple in Los Angeles. There, in a setting of Oriental magnificence, incense burned fragrantly on an altar. A gong sounded somewhere in the depths of the beautiful structure and an organ played softly. The minister, in bright red robes and with beads draped on his hands, led the congregation in prayer.

"I am the link in Lord Buddha's golden chain of love that stretches around the world. I will try to be kind and gentle to every living thing. I will try to think pure and beautiful thoughts, to say pure and beautiful words, to do pure and beautiful deeds."

## Church Notes

### AT SAINT PAUL'S

C. Harry Forse, Jr., will be guest preacher for the 10:30 a. m. worship and Mrs. Harold T. Nelson will speak on the "Preaching, Teaching, Reaching Evangelism Mission to be held at St. Paul's in October. For the music, Kathleen Cowan and Linda Forsberg will sing "My God and I" by Hoth; Mrs. Albert Anderson, organist, and Carolyn Anderson, pianist, will play "Adagio" by Beethoven and "Pass Me Not, O Gentle Saviour" by Doane.

### YOUNGVILLE EUB

There will be no Sunday preaching services; church school will be at 10:00 a. m., as usual. Alfred Thomas is representing the parish as lay delegate at Erie Annual Conference sessions at Findley Lake. Bishop Howard will preach at 10:00 a. m. Sunday worship, when there will be a service of consecration for probationers and ordination of elders for the ministry. Closing service will be at 1:30 p. m., when the Rev. and Mrs. Eugene Westley, missionaries to Nigeria, will speak. Regular prayer service in the local church will be at 7:30 p. m. Wednesday.

### JEHOVAH'S WITNESSES

At 4:00 p. m. Sunday, members will meet at the Carl Peterson Farm on Scranton Hollow road, when the guest speaker will be G. Russell Erickson of Pittsburgh, using the topic "How Important Is Life To You?" At 8:15 p. m., there will be group discussion of "The Supreme Will To Be Done", from the August 1 issue of the Watchtower. Mr. Erickson is a former resident of Scandia, son of Levi C. Erickson, and because of these meetings there will be no activities in Kingdom Hall this Sunday.

### EMANUEL UNITED

Dr. Paul Ackert will be guest speaker at the 9:45 a. m. service; Joan Wertz, at the organ, will play "Fifth Nocturne" by Leybach and "Sweet Hour of Prayer" by Bradbury. Mrs. Herbert Dickerson is general superintendent of the 10:45 a. m. Sunday School. Members of the church consistory are asked to note the monthly meeting has been postponed one week and will be held at 7:30 p. m. September 9.

### BETHANY LUTHERAN

"The Good Neighbor" will be Pastor Carl F. Eliason's sermon topic at The Service, 9:30 a. m.

### HESSLE VALLEY

Kenneth Stahl will be in charge of the 11:00 a. m. worship at the Chandlers Valley Lutheran church.

### LANDER METHODIST

"Sermon topic for the 11:00 a. m. worship service will be 'The Hallowing of Work'." MYF will meet at 7:30 p. m. Next week: Wednesday, 12:30 p. m., WSCS meeting; 7:30 Junior Choir; 8:30, Senior Choir.

### AT FIRST EUB

There will be no Sunday services, since everyone is invited to attend the closing sessions of the Erie Annual Conference at Findley Lake. Next week: Thursday, WSCS will meet in the Chapel, with Mrs. Lucy McCloskey in charge of the business session, Mrs. Lucille Johnson leading devotions, Mrs. McCloskey, Mrs. Evelyn Allen and Mrs. Marylou Ferry as hostesses.

### 1ST PRESBYTERIAN

As guest preacher in the 11:00 a. m. service, the Rev. Frank Kehrl will use the topic "Modern Discipleship". Carroll Fowler will play "When Thou Art Near" by Bach and "Cantabile" by Franck; Everett and Violet Borg will sing "O Loving Voice of Jesus" by Nevin; the quartet will sing "Repent Ye" by Scott, with Margaret Drivas as guest soprano.

# Titusville Is Having Trouble With Wage Tax

TITUSVILLE—Wage tax receipts are falling and there are "quite a few" persons who have not paid any tax on earned income, City Council has been told.

N. Allen Love, receiver of taxes, compiled a report which was presented by Councilman Domer Bailey. It showed returns are down \$18,930 from 1957 during the first six months of the year. This is a loss of 17.75 per cent.

During the first six months of last year receipts from the wage tax were \$106,643. This year the total is \$87,713.

This means that the city, school board and area taxing districts—such as Oil Creek Township, Cherrytree Township, Pleasantville, Hydetown and Centerville—won't receive as much money this year as they had budgeted.

Love said in his report that a recent check of Oil Creek Township lists showed that 104 persons had failed to file the 1957 tax returns. He said:

"We intend to have in the mail by September 1 a final notice to all persons living in the districts this office acts as receiver of taxes to the effect that failure to heed this final notice and file a tax return within 10 days will result in an information being filed for unlawful failure to file a tax return. A warrant will be issued for the arrest of each individual failing to file a return and a fine and costs will be imposed."

"In addition to such fine and costs penalties of six per cent interest per annum and one-half of one per cent of the first six months of non-payment of all delinquent taxes will be assessed."

Total wage tax collections for 1957 is \$215,773. The city income tax bureau acts as collector of Titusville, Allegheny Township, Centerville, Hydetown, Pleasantville, Oil Creek Township (Crawford County), Oil Creek township (Venango County), Plum Township, and Southwest Township.

# CHAPMAN DAM STATE PARK MECCA FOR VACATIONERS

—McIntosh Studio  
**SEN. L. E. CHAPMAN**  
For Whom the Popular Resort Was Named

Chapman Dam State Park has proved its promise. By today an estimated 213,000 persons will have used the park and additional thousands are expected to take full advantage of its recreational facilities on this final summer holiday weekend before the park closes.

To date more than 90,000 persons have used the beach and this total could swell above the 100,000 mark should the Labor Day Weekend prove pleasant weather-wise. (Attendance was held down somewhat during August rain and cold.)

In the accompanying photographs, Lifeguard Barbara Timm and friend (No. 1) chat on the public sandy beach which was long overdue within easy reach of

countians. Behind the beach 100 yards or so was the concession stand (No. 2) where hundreds assuaged their hunger pangs between dips and between meals.

Seated at one of the 270 picnic tables scattered throughout the camping area of the park's 625 acres is this family—Mr. and Mrs. Arnold Jewell and family, of Russell (No. 3) which availed itself of one of the many camping sites. They ignored the scare-rumors of rattlesnakes, as did just about everyone else.

Especially those three delightful queen contestants (No. 4) lounging lazily at rippling lap away, from left, at Nancy Ennis, Nancy Groesch and Sandy Steinkamp.

Heading back from the beach and picnicking area is this car (No. 5) which was one of hundreds which forded the spillway while waiting for the concrete bridge to harden (which it eventually did.)

And it's Miss Steinkamp again at the welcome sign which has been passed by 42,750 cars so far this summer (No. 6). On the park's biggest summer day, Sunday, July 27th, an estimated 16,000 persons came to the park to sun, swim, eat, hike, fish or relax, depending on their mood and inclinations. On that date, 12,000 swam, another 3,000 were picnickers, the rest "sightsaw".

Attendance last year—130,000.

## Radio and TV

By CHARLES MERCER  
NEW YORK (AP)—Charles Van Doren detests being described as a "personality."

"I'm a person," says Van Doren, who received an NBC-TV contract after his intelligence, character and manner made a tremendous impression on viewers last year in the course of winning \$129,000 on Twenty One.

"I teach and I write and I appear on television in various capacities. I have a contract with NBC that will run two years more and I don't want to be a white elephant to the network. I'm from New England and I want to earn my pay."

This week Van Doren is substituting for Dave Garroway on the Today show. In a couple of weeks he'll return to Columbia University and resume teaching

English literature. In November he'll publish an anthology of letters entitled "Letters to Mother."

Exactly what he'll be doing on NBC during the coming season is uncertain at the moment, but Van Doren hopes he'll be working in the area of news features.

Some time ago Van Doren decided that the television field where he could be most useful was news. Characteristically inclined to go to the heart of any matter, he went to the office of

Robert Kintner, president of NBC. "I told him what I wanted to do," he said, "and Mr. Kintner said, 'Fine. We'll send you to Tokyo for some news experience.' I was rather startled. My wife was pregnant (their daughter Elizabeth was born July 2) and I asked Mr. Kintner if I could take her to Tokyo too. He said, 'Sure,' and to check out with Bill McAndrew (vice president in charge of NBC news). But Bill McAndrew said they didn't need any-

Holub of Dauphin County, the State Champion was runner up trailing by 10 points. Adding glamour to the scene is Miss Daunna Doeblar 1958 National

"Queen of the Furrow" and the official hostess for the National Plowing Contest and Soil Conservation Exposition. Queen Daunna reigned supreme at the big farm event in capacity of official greeter. Miss Doeblar won out over 800 Pennsylvania farm girls in a contest sponsored by Soil Conservation Districts, Vocational Agriculture and American Fence Dealers.

## Stringent Laws Urged To Halt Drag Racing

UNIONTOWN, Pa. (AP)—More stringent state laws are being demanded against drag racing. A Fayette County grand jury Thursday recommended "that not only the public officers of Fayette County but also our legislators take immediate action to rectify the vehicle code and provide more stringent laws and that a letter of our recommendation and request be sent to the two gubernatorial candidates, both Democrat and Republican, so that they in their success will take immediate action against drag racing within our state."

Earlier this week Raymond Perdue, 25, and William Knight, 18, both of Brownsville, were indicted by the jury for involuntary manslaughter in connection with the traffic deaths of three persons last May 29. According to police, the pair was drag racing at the time.

### WARREN IDEA REPORTS PROGRESS

August issue of Warren Idea, official publication of Warren Area Chamber of Commerce, reports the progress made by 11 committees for first half of 1958. Other committee activities will be discussed in the next issue. The Idea comments, "You will note that our organization is making strides in many areas of endeavor following the formula that People plus Plans times Action equals Progress. . . . Remember the Keys to Successful Organization Effort are: Good Management, Active Voluntary Leadership, Adequate Financing, A Positive Program."

### JAMBOREE PACKS 'EM IN

The world's original WWVA Jamboree, of Wheeling, W. Va., starring Doc Williams and the Border Riders, presented at Beaty Auditorium Thursday, matinee and night, under the auspices of Farrah Grotto, as a benefit for the Muscular Dystrophy fund, attracted an overflow audience last night. A crowd estimated at 500 attended the afternoon show. Grotto officers and committee members today expressed themselves as deeply grateful for the interest and support given the project.

### Many New Bills Signed Into Law

WASHINGTON (AP)—President Eisenhower today signed 44 bills—including such far-reaching measures as the new farm law and Social Security revisions. Here are the major new laws made effective by Eisenhower's signature: FARM—A new, more flexible price support range, with a floor of 65 per cent of parity, is provided. Deep cuts in cotton and rice acreage are headed off, the way is opened to elimination of corn acreage allotments, and the wool subsidy program is extended for three years. SOCIAL SECURITY—Old age and survivors benefits are raised 7 per cent, with a minimum boost of \$3 a month, to a new range of \$33-\$116, effective with the Feb. 3 checks. The new family maximum is \$254 compared with the former \$200. Taxes to finance the program rise Jan. 1 from 2 1/2 per cent each on worker and employer on the first \$4,200 of annual pay to 2 1/2 per cent on \$4,800. WELFARE PLANS—Managers of employee welfare and pension funds are required to disclose how they handle the money. Eisenhower criticized the bill, saying it does not provide enough protection for workers even in that narrow field. EURATOM—U. S. help is provided for West Europe to build a million kilowatts of atomic power capacity. AID—An appropriation of \$3-298,092,500 is set up for military and economic aid, raising the total for such purposes to about 70 billion since World War II. The bill provides 652 million dollars less than Eisenhower asked. APPROPRIATIONS—A total of \$6,090,156,900 is provided to finance independent federal agencies, mostly the Veterans Administration. An estimated 40 per cent of American families now own one or more musical instruments.

the union's international hierarchy. Chairman John L. McClellan (D-Ark.) said testimony from Gibbons, who had been scheduled to appear today, will be postponed at least until Tuesday. Harry Karsh, a top lieutenant to Gibbons and actual boss of the Tampa local, invoked the Fifth Amendment Thursday in refusing to answer questions about Gibbons' election. Nor would Karsh talk about allegations that he was Gibbons' agent in violence-ridden drives to recruit the nation's circus and carnival workers—first into the Jewelry Workers Union and then into the Teamsters after Karsh was kicked out of the jewelry union. Most of the hearing dealt with Karsh's efforts to engineer labor contracts with circuses and carnivals, including the Ringling Bros. Barnum & Bailey Circus. There was considerable mention of violence in those organizations. The committee also heard how the Teamsters and another union set up a rival circus in Boston in 1956 in an effort to split the crowd while Ringling was playing there. However, the two unions lost heavily on the deal and the attempt at organizing Ringling workers failed.

deal with this problem in a review of such programs now under way. Eisenhower said the increases in the federal government share of the costs of such programs as aid to the needy aged "can lead only to a weakening of the responsibility of the states and communities." "I believe deeply," he said, "in the concept that the state and communities can best determine the actual needs of individuals and best administer programs of assistance to them—and that the state and local financial responsibility in these programs should be strengthened, not weakened." This is the fourth time since 1950 that social security benefits have been boosted by election-year Congresses. The new formula on retirement benefits will hike checks from the present range of \$30-\$108.50 a month to \$33-\$116, effective with checks going out next February 3. After some years the maximum will go to \$127 a month. For families with a number of dependents, the maximum benefit will rise from \$200. The tax increase actually will bring in more than is needed to finance the higher benefits. The surplus, however, will go to reduce the current deficit in the social security trust fund, and will bring the fund's income and outgo into balance by 1965. Workers earning the maximum of \$4,800 a year will pay \$120 a year in social security taxes as compared with \$94.50 at present. Self-employed workers electing social security coverage will have their tax raised from 3 1/2 per cent to 3 3/4 per cent. DANIEL FILLIS—Daniel Fillis, well known resident of Warren's West Side, died at 11:45 p. m. Thursday at the family home, 1616 Pennsylvania avenue, west, at the age of 72 years. Mr. Fillis was born in Polocastra, Italy, April 21, 1886, but had lived in Warren for the past 55 years and was retired Pennsylvania Railroad foreman after a half-century of service. He was a member of St. Joseph's church; of Warren Lodge No. 223, B.P.O.E.; a charter member of both the Marconi Club and Sons of Italy Lodge; and was well known politically as a Fourth Ward Republican committeeman. Besides his wife, Mary Regina Fillis, he leaves three daughters, Mrs. Betty Brindis, Mrs. Rose Juliano and Miss Ann Fillis, Warren; also one grandchild, Mrs. Jeanne Pintagore. Funeral services at 9:00 a. m. Monday in St. Joseph's church will be followed by interment in St. Joseph's cemetery. BERNARD HARTNETT—A private graveside committal service was conducted this morning in St. Joseph's cemetery for Bernard "Bunny" Hartnett, 47-year-old resident of 802 West Fifth avenue, accidentally drowned in Jamestown. Positive identification was established last night of Mr. Hartnett's body, which was discovered in Chadakoin River early Thursday morning. Two boys playing near the river found the body, which police said had been in the water at least a week. A brown sport jacket found near the body aided identification by a nephew. Samuel T. Bowers, corner of Chautauque county, issued a certificate of accidental death by drowning. Mr. Hartnett was born June 15, 1911, the son of Michael J. and Anna Marie Hartnett, and was a barber by profession. Survivors include two sisters and three brothers, Mrs. Nellie Masterson, Brooklyn, N. Y.; Mrs. Anna Hefferman, William, J. Walter and Harry Hartnett, Warren. DANIEL FILLIS—Friends will be received at the Leo D. Gibson Funeral Home at the usual hours, starting at 2:00 p. m. Saturday, and the parish rosary will be recited there at 8:00 p. m. Sunday. Services at St. Joseph's church at 9:00 a. m. Monday will be followed by interment in St. Joseph's cemetery. NOTICE—ELKS: All members of Warren Lodge No. 223, B.P.O.E. are requested to meet at the Elks Home Saturday evening at seven o'clock to go to the Leo D. Gibson Funeral Home for the Memorial Ritual in tribute to our late brother, Dan Fillis. DEAN A. ANDERSON, Exalted Ruler 8-29-11 NOTICE: All members of the Marconi Society are requested to meet at the club rooms, Sunday, 7:15 p. m. to go in a body to the Leo D. Gibson Funeral Home to pay respect to their late brother, Dan Fillis. SAM FALVO Pres 8-29-11 SECOND BIG BEN—Big Ben, in the Houses of Parliament, London, was named for Sir Benjamin Hall, first commissioner of parks and public buildings. It is the second Big Ben since the first, cast in 1866, was found to have a flaw and its tin and copper alloy was melted down to cast the present bell. NAZIS SENTENCED—ULM, Germany (AP)—A West German court today sentenced 10 wartime Nazi SS officers and men to prison terms of from 3 to 35 years for the murder of 5,202 Lithuanian Jews in 1941. The mass murder occurred in the German-Lithuanian border area during the beginning of the Nazi invasion of the Soviet Union.

## Vanguard Satellite Traveled 7,500 Miles

WASHINGTON (AP)—The Navy said today the Vanguard satellite launched from Cape Canaveral, Fla., May 27, traveled 7,500 miles into the South Atlantic instead of going into orbit. The 20-inch, 2 1/4-pound sphere and the 50-pound third stage of the Vanguard rocket were intended to reach an altitude to 300 or 400 miles and then to go into orbit. Instead, the second stage lifted the rocket to 388 miles, a naval research laboratory report showed. The second stage engine failed to cut off properly, causing the rocket to fly with its nose at an upward angle instead of parallel to the earth. The third stage, firing in a high arc, fired at the wrong angle and climbed to a peak altitude of 2,200 miles.

# Officials Plan for Reopening of Schools Next Week

## Record Number Will Be Enrolled In Local Classes

Thoughts of long, lazy days for teachers, as well as a record number of pupils, will come to an abrupt halt next week with the reopening of all county schools after the summer recess.

Beatty Junior High School and Warren High School pupils must report by 8:25 a. m. Wednesday. Elementary school students should be present by 8:45 a. m., with the exception of McClintock, where the tardy bell rings at 8:50 a. m. because of the bus situation.

For teachers, the school year begins a day sooner. All school principals met with Superintendent Carl Whipple at his home Thursday for an advance brief-

ing. Next Tuesday, the 21 new borough school teachers will meet in the various buildings to which they have been assigned with their principals.

At 11 a. m., all borough teachers will join with county teachers at Beatty School for the annual opening session. At 1:30 p. m. Tuesday each principal will meet with his school staff in the individual buildings. At 5:15 p. m. there will be a short staff meeting in Beatty Cafeteria to introduce new teachers to the group. This will be followed with a reception sponsored by Warren Education Association.

In Warren, a record number of 3941 students is expected to report opening day. This includes the record number of 290 in kindergarten. Beatty enrollment will be up from 1093 to an estimated 1119, while 1075 more are expected at WHS, largest group ever.

Throughout Warren County, outside Warren borough, a total of approximately 5,200 students is expected to enroll, according to County Superintendent John Mallory. This will mean increases for various area student populations which last year were: Brokenstraw Valley Joint, 1414; Northern Area, 1172; Sheffield, 545; Tidoute, 551; North Warren and Starbrick only elementary, 140; Pleasant, elementary only, 160; Clarendon, elementary only, 90; Irvinedale, 180.

Approximately 130 more students will be in the Warren borough school situation this year than last. Total this year of 3941 compares with: 3512 in 1957, 3732 in 1958, 3617 in 1955, 3473 in 1954, 3346 in 1953.

Parents are reminded first grade pupils will attend only morning sessions for the first eight days of classes to permit the various teachers time for a home visitation. Letters to first grade student parents have already been sent, indicating a possible time for the home-school meeting, according to Dr. Whipple.

**NEW STUDENTS REGISTER EARLY**  
Superintendent Whipple today reminded all new borough school students they must register ahead of time in order to be eligible to attend classes opening day. Those pupils who have not been in the local school system previously must report to the principal's office at the building they will attend by 9 a. m. Tuesday.

**St. Joseph's**  
The continuing record number of parochial school children in Warren must report to St. Joseph's School by 8:45 a. m. Tuesday. This is for grades 2 through 8.

For the first graders, who must report by 12:55 p. m. Wednesday, classes will meet during the afternoon only. During the same period, second graders will only have morning classes.

Sister Doloresa, school principal, said the record number of 180 pupils was expected to enroll. Last year the number was 168. A new teacher, (bringing the total to nine), has been obtained to help with the third grade which grew so large it was split into two sections.

Sister Doloresa reminded that catechism classes would begin Saturday, Sept. 6. Time will be from 10 a. m. to 11:30 a. m. New first grade public school students may register after all masses this Sunday, along with any other newcomers in the public schools.

**Sheffield**  
SHEFFIELD — Thomas K. Barrett, supervising principal of Sheffield Area Joint Schools, announces the opening day on Wednesday will be a regular school day. At 9:00 a. m. Tuesday, a general meeting will be held in the high school by instructors, after which the teaching staff will go to Warren to attend local institute.

Gayle Norton, Corry, has been employed to teach home economics and art; Mrs. Robert Dunn will be teaching junior high English.

About 530 will be enrolled in the public school system. The private kindergarten has enrolled about 40 for two sessions for the first three days of the week; and nursery Thursday and Friday mornings, with an enrollment of 13 children.

**Beatty Junior High**  
Henry Powell, principal of Beatty High School has these last-minute reminders for students at his building:

On Wednesday, September 3, all seventh graders will report to the auditorium and the gymnasium at 8:25 a. m. All seventh graders from A to Mc will meet in the auditorium, and all from the letter M through Z will meet in the gymnasium. Home room assignments will be read at that time.

Any eighth and ninth graders who did not see the home room lists posted in Warren National Bank window, may check the lists posted in the new lobby on Wednesday.

**Conewango Township**  
Conewango township schools, North Warren and Starbrick, along with schools in Warren borough, are scheduled to open for the 1958-59 term on Wednesday. Pupils will report to their buildings at the same time as last year, the first day being a full-length school day.

The cafeteria at North Warren will serve a regular lunch on that day, with the same prices, 30 cents for a hot lunch, including milk and dessert. At Starbrick School, the cafeteria will not open until a later date. Buses will run on the same schedules and on the same routes as last year.

Pupils who plan to enter either school for the first time are reminded to bring a birth certificate, vaccination certificate and report card from their former schools when they register September 3.

Both buildings have been cleaned, painted and repaired, and are in excellent condition for opening of the school term.

## Hambletonian To Be Run Through 1962 in Illinois

DUQUOIN, Ill. (AP)—The Hambletonian, trotting classic for 3-year-olds, will be held through 1962 at DuQuoin State Fairgrounds, preserving the race's rural setting over Eastern bidders with open check books.

That was the decision by a 3-7 vote of the Hambletonian Society directors Thursday. The present contract of Gene and Don Hayes, owners of the DuQuoin plant, runs through 1959. They were awarded a three-year extension.

The race has been successful in its two years in this agricultural and coal mining community, where pari-mutual betting isn't allowed.

Traditionally, the race has been held in such a rural setting. It also has always been held in the daytime and for a mile's distance.

Bidding for the classic were Vernon Downs, N. Y., Yonkers, N. Y., and Suffolk Downs, Mass. The Hambletonian was won by Emily's Pride with a record mile heat of 1:39 4/5 Wednesday.

## Pirates Meeting Braves Tonight In League Chase

MILWAUKEE (AP)—Milwaukee Braves Manager Fred Haney, who couldn't get the Pirates out of last place three years as Pittsburgh pilot, faces them tonight as a second place team determined to win better things — at the expense of the Braves.

The Pirates have refused to be shaken off by the National League leading Braves in the title chase and trail the defending champions by 7 1/2 games. Their position represents a climb from a tie for seventh and last place in 1957.

The Pittsburgh surge has been directed by Danny Mittraugh. He declined to make any predictions for the three-game series opening tonight, saying "we'll play them one at a time, but the future is always bright."

"There definitely will not be any vote taken on moving the franchise," he said.

There had been widespread reports that action would be taken on two fronts today to pave the way for Washington to try for relocation in Minneapolis.

The Minneapolis City Council is expected to approve a nine-million dollar bond issue to finance an expansion of the city's stadium from 21,000 to 42,000 seating capacity.

Mayor P. Kenneth Peterson said he understood there was to be simultaneous approval at both ends—the okaying of the bond program in Minneapolis and a favorable decision by the Senators' board on the transfer proposal.

## Engineers From India Studying at Carnegie

PITTSBURGH (AP)—Forty-three Indian engineers today own certificates of merit from the Carnegie Institute of Technology after completing their first year of on-the-job steel training.

The students received the awards Thursday as members of the India, Steel Training and Educational Program in the United States. The plan is designed to provide engineers for the two million-ton capacity steel mills being built in India.

Speaking at the ceremonies, United Steelworkers President Da-

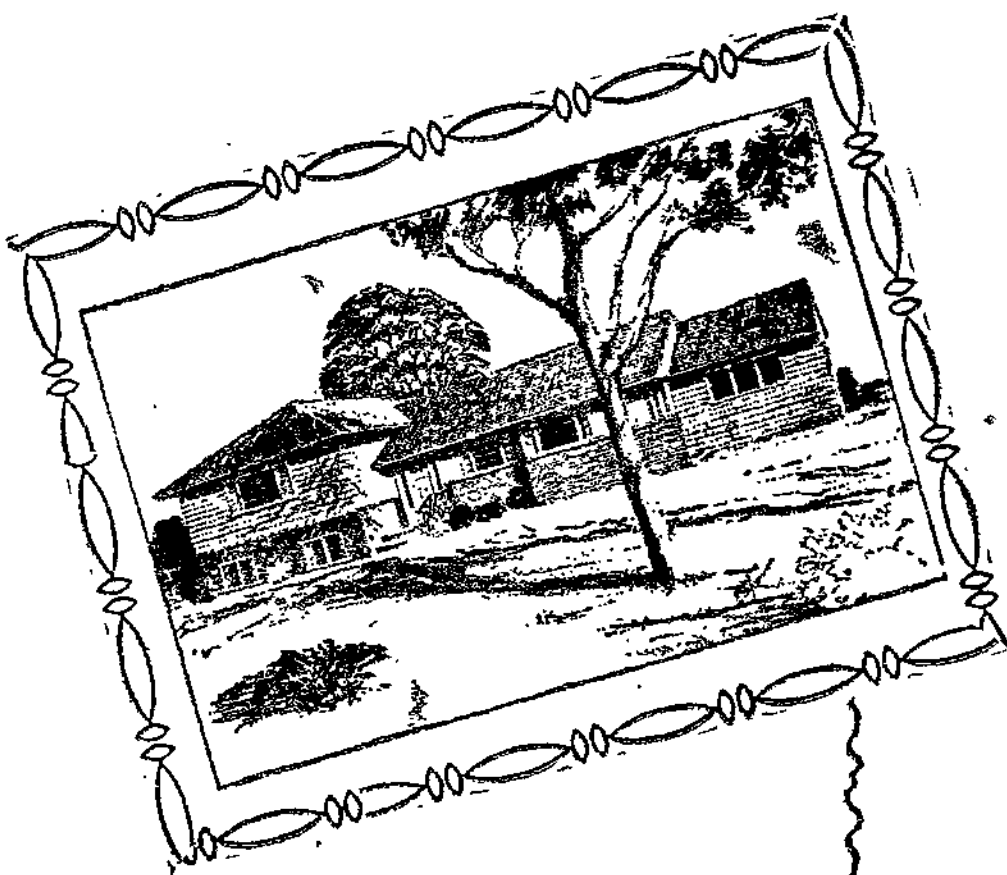

vid McDonald urged the engineers to cooperate with the "honest sound-trade unionist" in India and to resist the "insincere efforts" of communism.

## National Tennis Championships Get Under Way

FOREST HILLS, N. Y. (AP) — The National Tennis Championships got under way today with all sorts of questions to be answered.

Has Barry MacKay improved sufficiently under Jack Kramer's tutelage to make a serious fight for the title?

Has Harn Richardson, the only U. S. player who has demonstrated he can beat the Australians, decided to make a serious bid for the Davis Cup team?

How about National Collegiate champion Alex Olmedo? He is a citizen of Peru, but is eligible for the U. S. cup team because he has lived here so long. The question is whether he'll be selected.

## Lanky Australian Smashes the 1500 Meters to 3:36

GOETEBORG, Sweden (AP) — How fast can Herb Elliott run? That was the question track experts asked today after a world-record-smashing 3:36 for 1500 meters by the lanky, 20-year-old Australian.

Many even refused to venture a guess as he preceded his almost incredible 1500 with a 3:54.5 mile at Dublin Aug. 6. The mile is 1,760 yards. The 1500 meter is 1,640 yards, 1 foot, 4 inches.

Some believe that Elliott will be the first to better 3:50 for the mile. He has been under 4 minutes on eight occasions since bursting into the limelight late last January with a 3:59.9 mile at Melbourne.

## Introducing . . . Grid Coach

LOUIS DERUBIES

Another relatively new grid coach is Louis DeRubies, Sheffield Wolverine head, a graduate of Grove City High School and Edinboro State Teachers College.

Louis will be assuming second-year coaching duties Sept. 12 when the Wolverines tangle with Warren Reserves. His eleven last season finished with a 3-4-1 record.

On varsity football at Grove City, Louis entered Edinboro and completed four years on the grid squad.

Assistant coach at Bellefonte

High School in 1956, DeRubies accepted the head mentor position at Sheffield in 1957.

"We are hoping for a better year," DeRubies said, noting that "we have more size and experience than last year's squad."

**THERE HE STANDS**—After demolishing his 1956 Ford in the 1957 Grand Championship race at Stateline last season, Eddie Kisco of Kane, smiles broadly after catapulting through the air and being struck by Warren's Emory Mahan, while airborne. This was the worst accident at Stateline. Again Saturday night Stateline will present 1958 Grand Championship race at 8:30. Kisco will be piloting a '57 Chevy for Saturday's event.

## Bucs To Play 18 of Final 23 NL Games at Home; Big Advantage in Berth Bid

One of the most exciting months of baseball action at Forbes Field in many years is coming up in September, when battling Pittsburgh Pirates meet every team in the National League during their month-long home stand. The Bucs will play 18 of their 23 final games at home, and this gives them a big advantage in their bid for a final first-division berth. Their first one since '48.

Bucs have won 16 of their last 18 games at home, and now own a fine 35-22 home record this year, their best Forbes Field mark since '48.

Pirates will open and close their September push by hosting Philadelphia Phillies—first on Monday in a big Labor Day Doubleheader followed by a night game Tuesday. The Bucs will close out the season with Eddie Sawyer's Club Sept. 26-28, final day being annual prize day. A new 1958 Plymouth will be given away among several other prizes.

In between the two Philadelphia series, Pirates will host Cincinnati Redlegs for one game Thursday, and world champion Milwaukee Braves move in for their final four-game series Friday, one week from tomorrow, closing out with a twin bill Sunday, Sept. 7. A single game

is tabbed for Sept. 6—with starting time moved back to 2:05—just for this contest!

After a day's respite on Monday, Sept. 8, Bucs open an important two-night stand against San Francisco Giants Tuesday. Prior to the Tuesday game, the two clubs will finish off the suspended game of July 27. The score is tied at 3-3, Bucs batting bottom of eighth. Suspended contest will start at 8 p. m., regular battle to follow.

Others include Los Angeles Dodgers for a two game stand Sept. 12 and 13; Chicago Cubs, doubleheader Sept. 14; St. Louis Cardinals Sept. 16. Prior to this game at 7:30, Bucs and Cards will complete their suspended game of Aug. 3. Pirates lead 2-0, and are batting in their half of the fifth.

After a two day layoff, Bucs travel to Philadelphia for their final four-game road trip, returning home to meet the Phils in the season ending series.

## Holiday Features Planned at Batavia

**BATAVIA**—The final holiday weekend of the summer season will witness a variety of rich racing features as Batavia Downs hits the midway point in its 1958 harness race season.

Racing secretary Purvis Lawrason has scheduled events worth over \$10,000 as his feature races for the weekend and Labor Day cards. Highlight will be a \$2,500 junior free-for-all pace Saturday night.

Tar Boy, the homebred season champion three-year-old pacer, is expected to start in one of the weekend headliners. Ted Zornow's Tar Heel sensation paced a 1:59 2/5 mile at Vernon Downs earlier this month, fastest mile of the year for a 3-year-old. He also lowered Batavia's record for 3-year-old pacers to 2:03 this season.

Lawrason has begun plans for two special paces slated for September. The \$11,000 Trans-America, a nationwide pacing tournament will halt at the Downs September 12. The \$15,000 Queen City Trophy is carded for September 18. Belle Action, Downs pace record holder with a 2:00 4/5 mile last year, is eligible to both races.

Lead is used in electrical fuses because of its low melting point. A short circuit melts the lead, breaking the circuit before damage is done.

**HANEY**

Last of a Series

By JOE REICHLER

Associated Press Sports Writer

**MILWAUKEE (AP)**—This may sound like sacrilege but Fred Haney, who served his big league apprenticeship under Ty Cobb, is convinced the modern players are better than the old ones.

What's more, it is the 60-year-old Milwaukee pilot's contention that the managers of Cobb's era would be unable to cope with the present-day athletes.

"I'm convinced the players today are better," Haney said. "They're a different type. This is an era of specialists. It's not like the old days when a manager played his first nine men until one got hurt, then he'd substitute until the regular recovered. We carry 25 players and each one serves a definite purpose."

The managers of 30 and 40 years ago would not have had the patience it requires to handle the present crop of players, Haney thinks.

"The thinking of the players is different," with the transition or he couldn't with the transition or he couldn't manage.

Haney credits two men for teaching him practically everything he knows about managing—Ty Cobb and Branch Rickey. He played under Cobb at Detroit from 1922 through 1925, and he managed seven years for Rickey, four at Hollywood and three at Pittsburgh.

He got his first manager's job in 1935. Four years later he was called up by the last-place Browns. He raised them to sixth but was fired in 1940. He was winning pennants regularly in Hollywood when he was called by Rickey to take over the young, untutored Pirates in 1953.

When they began to come out of the woods, Rickey fired him and he caught on with the Braves as a coach in 1956.

"What I learned from Cobb and Rickey was to stand by me when I faced the opportunities and pres-

Pirates Opening 3-Game Series at Milwaukee Tonight

By ED WILKS  
Associated Press Sports Writer  
Pittsburgh's persistent Pirates thunder into 10 telling days in the National League pennant chase tonight, opening a three-game series at Milwaukee with the first-place Braves.

The next 10 days could be thrillers or chills for the no-longer-bungling Bucs. At the moment, they're in second place, 7 1/2 games behind the Braves. They stand 7-8 against the Braves with seven games remaining in the season series.

All seven are scheduled for the next 10 days — three at Milwaukee this weekend, four at Pittsburgh next weekend.

Milwaukee wrapped up a 4-1 series at San Francisco Thursday by smacking the third-place Giants 3-0 behind Bob Rush's 10-hit pitching in the only game scheduled in either league.

Magic Number for Senators With the Yankees Is Three

By ED WILKS  
Associated Press Sports Writer  
The New York Yankees should finally get around to making Washington the first victim of the inevitable in the American League pennant "race" this weekend.

The champs' magic number for officially eliminating the last-place Senators is three. Any combination of Yankee victories and/or Washington defeats totaling three does the job.

The Yankees open a three-game

set at Washington tonight.

But if the Senators are doomed to be the first to go, they won't be alone very long. The number is 17 for the Yankee pennant-clinching over the second-place Chicago White Sox.

The magic numbers that officially eliminate the rest of the league go like this: Boston, 16; Baltimore, 13; Detroit, 12; Cleveland and Kansas City, 9.

By comparison, Milwaukee's pennant number in the National League is 21 after rapping third-place San Francisco 3-0 in the only game scheduled in either league Thursday.

All that looms ahead for the Yankees, who have been in first place since April 18, the fifth day of the season, is a job of getting their pitching back on the beam for the World Series. Which is an incredible thing, as Casey Stengel would say, when you figure his guys are 11 1/2 games out front.

Fact is, the Yankees have a staff that has produced 48 complete games this season (second only to Milwaukee's 57 in the majors), yet they've managed but 4 in 20 games over the past three weeks.

Whitely Ford (14-7) will go tonight against Pete Ramos (11-13).

Home Run in Seventh Wins For Pop Boys

With Harold Brown blasting a home run with two men on in the seventh, Soda Mineral captured second game of the three-out-of-five Shaughnessy play-off series in City Softball League Thursday night as they defeated Betts Machine Shop 3-2 on West Side diamond.

Tuesday evening, Betts dropped the first playoff with a close 7-6 tally.

Ken Sorenson coasted along on a four-hit shutout until the seventh inning. With one out, Dick White reached first base on an error which was followed by Sam Koebley's single. Brown then lined his homer in to right field.

Betts Black Knights built up a two-run lead end of the fourth with singles in third and fourth.

Winning pitcher was Bud Speicher, striking out six batters and walking only one. Sorenson was the loser, striking out four and walking three.

Stateline Staging Grand Champion Race Saturday

Biggest purse ever offered, lap money, and a huge, but beautiful trophy, awaits the winner of 1958 Grand Championship race at Stateline Speedway tomorrow evening.

The big purse totals \$3,000 and will definitely draw a field of from 30 to 35 1955-58 late model stock cars. All pilots will have their cars tuned to perfection for this 100-lap race, largest event of the current season.

Defending champion is Jim Patrick, Wellsville. Last year Jim duelled Emory Mahan down to the very end. Many will never forget the most spectacular accident in Stateline's three-years of operation. (See photo). Seeing Eddie Kisko of Kane catapult into the air and Mahan crashing into his car before it crashed into the ground will long be remembered by fans.

Top contender for the crown is Dean Layfield, Dean has the largest collection of trophies of any stock car driver and has his eye on the '58 Championship trophy. But 100 laps is a long race and with the kind of competition displayed at Stateline this year, it could turn out to be any man's race.

The event also carries double points. Closeness of the current top four in point standings, could change positions very quickly tomorrow.

A field of fourteen 1/4 mid-gets of Pennsylvania and New York will head the program. These boys and girls, 6-12, put on a brilliant display of driving. The five event program is scheduled to get under way at 8:30 p. m.

PORTERFIELD LAID UP  
PITTSBURGH (AP) — Pitcher Bob Porterfield of the Pittsburgh Pirates is back in Pittsburgh today for treatment on his left knee. Porterfield wrenched the knee in a game at St. Louis Wednesday night.

Pirate officials are hoping Porterfield will be able to pitch Monday against the Philadelphia Phillies in a Labor Day doubleheader at Forbes Field.

Algerian Lightweight Is Battling Tonight

By MURRAY ROSE  
Associated Press Sports Writer  
NEW YORK (AP) — Lahouari Godih's handlers have nicknamed the Algerian lightweight "Go Go" in the hope that he will see the light and do just that against Don Jordan tonight.

"He has to open up and keep punching in the American style," said Manager Jersey Jones. "He's a fine boxer and has fast hands. Very clever, too. They go for that stuff in Europe. Here you've got to please the fans and belt as well as box."

The 29-year-old Godih has a 2-1 record in the U. S.

Jordan, however, is an 8-5 favorite for the television 10-rounder at Madison Square Garden.

The lanky, 5-9 lightweight and welterweight contender from Los Angeles, is just as eager to make good here as his opponent.

## New York Central Plans Nine Mile Spur in Venango

Titusville Herald: The building of a new railroad spur nine miles long is being planned by the New York Central Railroad, The Herald learned yesterday. It will be the first brand new track of any length to be laid in Northwestern Pennsylvania in 40 years.

Designed to serve a large coal operation, the spur will be in Victory and Clinton townships, Venango county, with perhaps a short stretch in Irwin Township. It will start at a point about five miles, air distance, southwest of Franklin.

H. N. Curtis, assistant superintendent of transportation for the NYC at Erie, said yesterday the line might possibly be finished this coming winter. It is being surveyed now.

The spur will serve the Tasa Coal Company, which has extensive strip mine coal properties in the vicinity of Bullion. State Route 308, the Pearl-Clintonville highway, crosses the region.

The railroad estimates that the mines will load about 60 cars a day. The reserves of coal in the region are figured variously. Some coal men say they will last 10 years; the railroad inclines to the belief that 25 to 30 years is more nearly correct.

The new track will be laid from a point on the Clearfield Branch of the Creek opposite Victory Run. This is about a mile and a half south of the overhead bridge which carries Route 8 over the creek and the railroad—at the bottom of Pecan Hill. It is about two miles north of Big Sandy's confluence with the Allegheny River.

mines, not loads. Once at the top, the tracks will travel along the rolling plateau which Route 8 follows through Wesleyville, Barkeyville, Harrisville and beyond.

Once the task of building a railroad in such rugged country would have been formidable, but right-of-way engineers, backed by today's earthmoving machinery, no longer lose sleep over such jobs.

Along Victory Run is Victory Furnace, one of the best preserved iron furnaces of the many which once made iron in Venango County. Victory was built in 1843 and blew out in 1851.

In addition to iron and coal, another industry will be represented along the right-of-way, or rather under it. Just after the tracks climb out of Victory Run ravine, they will cross over the big gas pipeline which was built across Northwestern Pennsylvania a few years ago by the Tennessee Gas Transmission Company. The pipeline runs a short distance south of 60015, the Twin Oaks-Five Points road.

Coal from the Victory Run spur will be hauled to Stoneboro and Ashtabula, where it will roll east and west on the Central's main line.

## Says U.S. May Monitor World From the Moon

THE HAGUE, Netherlands (AP)—A U. S. congressman reported today that the United States has developed electronic equipment which can use the moon to "tell what is going on" on the entire surface of the earth.

"We can monitor the whole world," Rep. James G. Fulton (R-Pa) told newsmen after referring publicly to the moon system at the meeting here of the International Astronautical Federation.

"This equipment now is being installed," he declared. "It uses the moon as an artificial satellite. It is startling. It is a great breakthrough."

Fulton hinted that the system could detect instantaneously the launching of intercontinental ballistic missiles or nuclear explosions.

When Henry Ford assembled his two-cylinder car in a shed near Detroit in 1896, he found it was too big to go through the door. Ford picked up an ax and enlarged the door.

## Signup for 1959 Soil Bank Open Chairman States

The signup for 1959 Conservation Reserve of the Soil Bank will open September 2, 1958 at the county Agricultural Stabilization and Conservation Office in Warren, Chairman N. E. Dodd announced today.

The first step in the signup is for the farmer who is interested in the program to come to the county office and request that annual rental payment rates be established for his farm.

At the same time, the farmer should bring with him information to be used by the County Agricultural Stabilization and Conservation Committee in establishing rates for his farm. The chief facts needed, Chairman Dodd said, are acreages and yields of the three principal crops on the farm for the past two years and acreage for other land use on the farm.

The Conservation Reserve is the only Soil Bank program available for 1959. Under the program, farmers retire land from general crops for up to 10 years and devote the reserved acreage to land, water or wildlife conservation practices. The Government makes an annual rental payment for the land and will also share in the cost of establishing the conservation practices.

ment rates will be higher for the most productive farms and lower for less productive farms.

For farmers who request it, the county committee will figure two sets of maximum annual rates, Chairman Dodd said. One will apply if only part of the eligible acreage on a farm is placed in the Reserve. Another rate, 10 percent higher, will be available if all eligible land on a farm is put in the Reserve for at least 5 years.

After maximum rates have been determined for a farm, the farmer will have two weeks in which to decide on participation, designate land for the Reserve, and apply for a contract. Land may be offered at less than the established maximum to increase the chance of acceptance in case there are insufficient funds to cover all offers.

The signup phase of the program closes October 10, 1958 and all requests for establishing farm rates must be received by that date, Chairman Dodd said. The deadline for applying for contracts is October 24, 1958.
